The Code That Counts Bible Code Truth:

The Code That Counts Waldo N. Larson, 1999 *The True Bible Code* Lord's Witnesses (Organization), 2000 **What Is Truth?** Mark L. Long, 2021-03-25 This book offers a challenge to all who search for the truth as to why we do the things we do It traces biblical history which is designed to bless against the backdrop of today's world and that which has plagued mankind throughout time Within each chapter the truth bubbles to the surface and the reader is slowly introduced to the menacing power that has clandestinely guided many into making wrong decisions Truly this book is a window of opportunity that offers a view into a much larger world a world filled with truth peace love and hope By the end of the book the reader will truly be able to answer the age old question What is Truth **Christian Living Imperatives** Ross Thompson, 2024-10-24 The book has forty eight two page discussions on essentials for a life based on the Word of God in the power of the Holy Spirit Holiness Faith Relationship with God Jesus and His atonement How to have joy Christians and debt Loving impossible people Death the last enemy It is no longer I but Christ Suffering Parts of the Word we prefer to ignore No more consciousness of sin are just some of the topics discussed Expect to find discussion you may not have thought about previously Expect to find new revelation concerning all Jesus accomplished for us in His death burial and resurrection If you are open to change this will be a life changing book Nineteen further discussions of interest to Christians make up the last part of the book God will give you debt cancellation unusual spiritual events among Christians are the four horseman of the apocalypse here today the Bible codes in Genesis miracles in the African Churches miracle money are some of the topics covered A diverse assortment of topics you are sure to find absorbing *Factual Faith - Belief Founded on Truth* Jaco Prinsloo, 1900 Today there are more than 10 000 religious beliefs in the world Your belief in the supernatural or the lack thereof will be among the myriad of beliefs that are held by various peoples and nations in this world How did you choose your belief system and are you 100% sure that what you believe is actually true Can you offer reliable proof to those in search of answers to substantiate your viewpoint on the matter Have you ever asked yourself why we as humans no matter where we find ourselves on the planet are the only creatures with a built in need to worship some form of Deity We walk around with so many more irrational beliefs than we realise and this can have an extreme effect on the way we think and behave We have been bombarded with information and influenced by our upbringing The foundation of our unique cultural development lies in the influence of our nurturing by parents in our personalities and the interaction with our environment and our peers In recent years people have been taught to adopt a relativistic viewpoint and not to think critically about subjects they would rather accept the popular mind set even when refuting factual evidence stares them in the face If you do not agree with what the majority sees as true and trendy it can negatively affect your social status and even your career and who wants that Prinsloo gives a sincere and accurately researched look at the flaws in modern day perceptions on extremely profound life issues If you have been intrigued by the Universe and the complexity and diversity of life on Earth and doubted

the reality of the spiritual this book will bring you to the realisation that it is the one subject in which you can have 100% confidence of it being factual and true You have probably asked many questions on matters pertaining to the very essence of your being and on the truth about the Universe life and the world in which we live as philosophers and scientists have done over centuries In this book you will find your answers based on provable facts and thorough scientific verification presented in an accessible and logic fashion This work challenges mainstream theories like Relativism and Darwinism and offers innovative evidence for belief in the supernatural through verifiable evidence in an enjoyable and interesting way It provides tangible proof which you can easily verify for yourself You will be challenged by questions like How does one prove something to be factual and true What are the motives for accepting unfounded beliefs and why keep on believing in something that is already proven false Would you have more confidence in your belief if you had access to scientifically provable facts that supported and substantiated your viewpoint Does God exist Can we prove that He exists Who is He really and what are the implications for my life Whenever you encounter new ideas or views you will be called upon to contrast them against those concepts and theories that you have always believed to be true Many of these ideas and theories have simply been chosen and adopted by people in defiance of the truth since the alternative would not fit their worldview or the responsibility it would require of them This book will help you not to become an influenced victim of untrue modern trends but will place you in a position of knowledge and authority to defend your beliefs Read this ground breaking book you who dare and the secret motives of your belief system will reveal themselves to you

The Dna of Scripture Karl L.

Dahlstrom,2015-05-27 By utilizing a relatively unknown natural law of science we are able to reveal the hidden pattern and divine structure of the Holy Scripture which by definition proves its authenticity This book is a unique defense of the Bible and thus by extension that of Christianity by providing a proof of the veracity of the Word of God in a scientific manner outside the Bible itself which previously has not been accomplished The author will demonstrate that the same true natural law of science the Law of First Digits as described in chapters 2 and 3 when applied to the Holy Scriptures of the Bible proves the presence of Gods unfathomable intelligence in creating and preserving the truthfulness of His Word Moreover this proof extends to the identification of God as the only true God of the universeto the exclusion of all others That is a very powerful and controversial statement but one that can be backed up If one proves the entirety of the Scripture as true then it follows that the God referred to in those same Scriptures is and must be the one true God of the universe
