Volume 2 from British to Muliracial Commonwealth Nicholas Mansergh, 1982 **An Irish Empire?** Keith Jeffery, 1996 The notion that the British Empire was in any way an Irish Empire is not one that will cut very much ice on the contemporary island of Ireland north or south This volume explores aspects of the experience of Ireland and Irish people within the British Empire and addresses a central concern of modern Irish scholarship The paradox that Ireland was both imperial and colonial lies at the heart of this book One of the themes which emerges from the studies in this book is the irrelevance of the Empire to some Irish concerns Popular culture sport and film are investigated as well as business history and the military and political sinews of Empire In cinematic terms the image of Ireland has been largely in the hands of the British and American film industries Analogies between Ulster loyalists and zealous British settlers are frequently drawn The book examines the views of that region s businessmen on the British Empire including their perception of Empire the role of Empire as an economic unit and views the status of Northern Ireland within the Empire The eventual choice of both flags illustrates that pre partition strands of both loyalism and Unionism continued to survive among leading politicians within Ulster during the 1920s The British Empire Union of 1915 established to make the Irish more Empire minded included the energetic promotion of imperial history in schools and of the idea of Empire Day within the population as a whole **Observing Elections the Commonwealth's Way** Carl W. Dundas, 2007 The Commonwealth of Nations comprises 54 nations bound by a common thread of inherited democratic principles that have been deepened and expanded over time In this work author Carl Dundas a key player in election observation reviews the work of Commonwealth election observers and identifies some of the lessons to be learnt from the experiences of several observation missions The period 1990 2000 covering 32 missions is examined and the collective experience of flawed election processes valued and weighed against the impact of local conditions to allow citizens the opportunity to exercise their franchise freely Of particular interest is the commentary on the one party military or apartheid regimes that were transformed into multiparty democracies The trials faced by the management bodies of transitional elections in creating a level playing field for the contesting political parties and keeping the election process transparent were significant and particularly challenging Observing Elections is a special edition of the Integrationist and a useful text for anyone interested in development politics and Commonwealth studies Evaluating Policy Advice John Uhr, Keith Robin Mackay, 1996 **The**
