Hendleman,2013-05-20 This book covers the origin and archaeological development of selected categories of civilized elements identified as being Jaredite in origin It is an attempt to elevate the Jaredite civilization into the light of day from the heretofore dark mists of history where science has forced it for the last 2 500 years The Jaredite civilization spanned a possible 2 530 years and its known achievements have far exceeded those of modern mans in many regards In c 2800 BC the Jaredites built a pair of concrete superhighways over 2 700 miles complete with paved exits and a secondary road network nearly the entire length of the South American continent Their civilization could answer the riddles of the Sphinx the questions of who built the pyramids and why the mystery and likely origin of UFOs prove whether or not George Lucas had the only ET detail what Noah brought aboard the ark besides three sons and their families and provide an answer to the question posed to Dr J Robert Oppenheimer by a student as to whether Alamogordos nuclear bomb in July 1945 was the first ever atomic bomb explosion in history Many other possible but likely Jaredite achievements are incredibly fascinating and await only an honest archaeological effort to prove them The historical facts exist they are real and three dimensional but to date standard classical science has relegated them to the dustbin of historys forgotten basement closet Satan has made a tremendous effort since mankinds beginning to keep man blinded to the historical facts of our heritage causing the deliberate destruction of millions of artifacts scrolls books and whole libraries throughout the world to do so This book is but a small effort to expose and make known a portion of mankinds previously hidden but rightful heritage I Know the Answers

Simon Khachatryan,2023-08-23 Comparing human lifespans to the age of our planet we consider the Earth as some kind of constant But should we According to the Old Testament and many ancient manuscripts there were events and mythical characters that modern science can neither prove nor disprove In fact getting a scientific explanation of an event is much harder than witnessing it That is why science is way behind religion and our only hope for the future is to bridge the gap between them In this book the author explores why every generation struggles with reconciling the differences between science and religion He seeks to answer questions such as Has the Earth always rotated in the same direction Were there any shifts of the poles on Earth Was the sea level always the same Was the moon always there While there are widely accepted theories on the origin of continents oceans mountains lakes and volcanoes they all have their shortcomings In this book you ll discover a revolutionary approach that answers how our universe appeared and where we are going UFOs and Popular Culture
