The Civilization Of China Herbert A. Giles, 2020-05-19 Taken in its widest sense, the term includes Mongolia, Manchuria, Eastern Turkestan, Tibet, and the Eighteen Provinces, the whole being equivalent to an area of some five million square miles that is considerably more than twice the size of the United States of America. But for a study of manners and customs and modes of thought of the Chinese people, we must confine ourselves to that portion of the whole which is known to the Chinese as the Eighteen Provinces and to us as China Proper. This portion of the empire occupies not quite two fifths of the whole, covering an area of somewhat more than a million and a half square miles. Its chief landmarks may be roughly stated as Peking, the capital in the north; Canton, the great commercial centre in the south; Shanghai on the east, and the Tibetan frontier on the west.
