How to Educate a Citizen E. D. Hirsch, 2020-09-08 Why a dumbed down curriculum is bad for our democracy A persuasive scientifically sound case for an education revolution Shelf Awareness In How to Educate a Citizen E D Hirsch continues the conversation he began thirty years ago with his classic bestseller Cultural Literacy urging America's public schools particularly at the elementary level to educate our children more effectively to help heal and preserve the nation Since the 1960s our schools have been relying on child centered learning History geography science civics and other essential knowledge have been dumbed down by vacuous learning techniques and values based curricula indoctrinated by graduate schools of education administrators and educators have believed they are teaching reading and critical thinking skills Yet these cannot be taught in the absence of strong content Hirsch argues The consequence is a loss of shared knowledge that would enable us to work together understand one another and make coherent informed decisions A broken approach to school not only leaves our children underprepared and erodes the American dream but also loosens the bonds that hold the nation together Drawing on early schoolmasters and educational reformers such as Noah Webster and Horace Mann Hirsch charts the rise and fall of the American early education system and provides a blueprint for closing the national gap in knowledge communications and allegiance Critical and compelling How to Educate a Citizen galvanizes our schools to equip children with the power of shared knowledge Concerned citizens teachers and parents take note We ignore this book at our peril Joel Klein former Chancellor of New York City Public Schools

For anyone concerned with the world community, here are the means to explore and participate in today's most crucial endeavors.
