head as citizens can now produce package and distribute news and information with shoestring budgets and in authoritarian regimes with no license of practice This new political economy means the power that special interest groups used to enjoy is increasingly slipping from their hands as citizens take back the power to appropriate social media journalism to counter hegemonic narratives Citizens can also perform journalistic roles of investigating and whistleblowing but with a lack off or limited regulation This volume seeks to explore and untangle these issues and provides an invaluable resource for researchers across the field of journalism mass media and communication studies
