Out of the Valley of the Forgotten, Or, From Trinil to New York John Edmiston Bauman, 1923

And Then My Uterus Fell Out P.R. Newton, 2013 A brutally honest and at times pee your pants funny tale about one woman s journey through motherhood with a condition that affects approximately half of all females pelvic organ prolapse This moving memoir is one woman s inspirational story about the traumatic birth of her first child and subsequent diagnosis of the chronic condition pelvic organ prolapse Wrapped within an engaging account of living with prolapse is an insightful glimpse into what it means to be a mother battling chronic pain embarrassing side effects and depression in a society that often idealizes motherhood as a time of bliss and joy and dismisses this embarrassing and often debilitating condition Inspiration for her healing comes from the most unlikely of places the heart wrenching struggles of women in the developing world A startlingly honest elegant and often humorous depiction of life with pelvic organ prolapse And Then My Uterus Fell Out calls out to all women around the world who suffer in silence with a life affirming message of dignity hope and sisterhood Keywords pelvic organ prolapse running with prolapse uterine prolapse bladder prolapse incontinence childbirth birth trauma special needs parenting adoption

REVIEWS This is an honest and detailed account of living with a wearing relentless condition which pervades every aspect of the lives of millions of women It will be helpful for anyone who has prolapse or lives with someone who has prolapse or professionals who care for people with these conditions It is rare to get such insight into the impact pelvic organ prolapse has into a patient s life so this book will be valuable for many people Well worth a read Piper s book is utterly relatable to those of us with POP and an eye opener for those who find themselves wondering what all the fuss is about From the dismissal of doctors to the struggle of caring for your brand new baby when you have just been hit by an emotional and physical trick to how each and everyone chooses to deal with this one it arrives it is all within these pages I found myself wishing for some magical happy all fixed ending for her I read this book so that I would be able to better understand pelvic organ prolapse It wasn t until halfway through the book that I discovered that I suffer from prolapse myself and that health problems that I ve suffered with for years are as a result of it I now have a

sense of hope about the future of those issues I didn't realize when I sat down to read this book that it would literally change the course of my life Piper's highly personal story is heartbreaking and yet told with humour and threaded with hope I admire her determination and her willingness to share her experience in order to help others My hope is that many other women will read it and begin a dialogue about this hushed topic Heart breaking honest and a worthy read for any woman A well written informative must read for all women and their partners about a life altering condition that up to now women have suffered in silence kudos to the author for sharing her story
