Tunisia Country:

Tunisia's Andalusians Marta Dominguez Diaz, 2025-08-31 Tunisia's Andalusians tells the captivating story of those Andalusians descendants of Muslims expelled from Spain in the seventeenth century who sought refuge in Tunisia. Rather than simply replicating Iberian traditions, Andalusian culture in Tunisia stands as a vibrant and evolving phenomenon shaped by complex dynamics of interaction and adaptation over four centuries. The book dismantles the romanticised view of Andalusian culture as a mere transplantation of al Andalus, analysing distinctive cultural features that distinguish Andalusians as an ethnic group within Tunisia's diverse social fabric. Drawing on historical records and contemporary ethnographic data, including personal accounts and family archives, the book sheds light on how Andalusians navigate their unique cultural position amidst a Tunisian national narrative often focused on Arabo-Muslim homogeneity. By examining the complexities of cultural preservation and assimilation, the book offers a nuanced perspective on Andalusian identity, revealing its dynamism and resilience in the face of changing social, political, and economic circumstances.

Tunisia's International Relations since the 'Arab Spring' Tasnim Abderrahim, Laura-Theresa Krüger, Salma Besbes, Katharina McLarren, 2017-09-22 When popular protests started in Tunisia in late 2010, few anticipated the implications these events would have for the entire Arab region. In the following years, this region witnessed deep changes, increased divisions, and even failing states. Meanwhile, Tunisia managed to assert itself as a new democracy. How did this small country manage its democratic transition within such a short period? And what implications has this had for its foreign policy and its role in international politics? This book assesses Tunisia's transition inside and out from four angles: Tunisian polity and politics, which provide the framework for its foreign policy since the Arab Spring; bilateral relations before and after the Arab Spring; Tunisia's activism in international organisations, as well as their presence in Tunisia and transnational issues in Tunisia. Drawing on a broad range of primary sources, including the author's own interview material conducted with politicians and representatives of civil society and international NGOs involved in the transition process, the book shows that since 2011 Tunisia has not only developed fundamentally at the domestic level but also at the level of external relations. New and old alliances, a broadening of relations, and new activism of civil society and of Tunisia in international organisations certify that Tunisia has the potential to play an increasingly important role regionally as well as internationally. Providing an encompassing picture of Tunisia's changed role and successful transition from an autocracy to a democracy, the book allows students and scholars in the field to understand the last country standing better: a country that both the scientific community and the political scene should not underestimate for the promises it holds.
