*Forty-four Turkish Fairy Tales* Ignacz Kunos, 2017-02-22 THE STORIES comprising this collection have been culled with my own hands in the many hued garden of Turkish folklore They have not been gathered from books for Turkey is not a literary land and no books of the kind exist but an attentive listener to THE STORY TELLER who form a peculiar feature of the social life of the Ottomans I have jotted them down from time to time and now present them a choice bouquet to the English reading public The stories are such as may be heard daily in the purlieu of Stamboul in the small rickety houses of that essentially Turkish quarter of Constantinople where around the tandir the native women relate them to their children and friends These tales are by no means identical with nor do they even resemble those others that have been assimilated by the European consciousness from Indian sources and the ARABIAN NIGHTS All real Turkish fairy tales are quite independent of those rather are they related to the Western type so far as their contents and structure are concerned Indeed they may only be placed in the category of Oriental tales in that they are permeated with the cult of Islam and that their characters are Moslems The kaftan encircling their bodies the turban on their heads and the slippers on their feet all proclaim their Eastern origin Their heroic deeds their struggles and triumphs are mostly such as may be found in the folklore of any European people It is but natural that pagan superstition inseparable from the ignorant should be always cropping up in these stories Like all real folklore they are not for children though it is the children who are most strongly attracted by them and after the children the women They are mostly woven from the webs of fancy in that delectable realm Fairyland since it is there that everything wonderful happens the dramatis person being as a rule supernatural beings

*FORTY-FOUR TURKISH FAIRY TALES* Ignacz Kunos, Willy Pogány, 2010-02 This volume is a treasure chest of classic Eastern tales drawing on the rich folklore of Turkey Forty four Turkish Fairy Tales has not been in print for almost 100 years mainly because the original edition had lavish production standards On the used market mint copies of the 1913 original can cost up to four figures This volume is appropriately titled Fairy Tales because something definitely fairy occurs There are talking animals flying horses birds that magically change into beautiful maidens quests to win the hand of a princess magical objects simple yet brave peasants wizards witches dragons and dungeons epic journeys and loveable fools The majority of these stories contain

encounters with Dews or Turkish supernatural beings better known in the West as Genies Sometimes the Turkish Dews are also called Arabs There are many other specifically Turkish elements and references in the stories for which the glossary at the end of the book is of particular help So this isn't simply an orientalist set of European Tales but was drawn from an authentic Turkish oral storytelling tradition by Dr Ignacz Kunos Plus there are almost 200 illustrations exquisitely crafted by Willy Pogany While our production is not as lavish as the original it does contain the original illustrations Note some of the illustrations could be considered unsuitable by 21st Century standards because they can be considered as caricatures with obvious ethnic stereotypes However in most cases the illustrator is portraying imaginary creatures which are supposed to be grotesque Also to be remembered is the book was originally produced in 1913 when the world's attitudes towards racial tolerance and acceptance were quite different to those of today 33% of the net will be donated to charities in Turkey for education scholarships
