# Under the Volcano

by Malcolm Lowry

*Under the Volcano* is a novel of major importance, one that will be read and reread, discussed and studied not only in the year of its first publication, but for years to come.

The story, which is centered against the glowering background of Mexico on a hot day, is chiefly that of Geoffrey Firmin -- formerly a British consul, but now with an occupation except his habitual drinking -- and of his efforts to deal in the confusion of the unrequited love, in the early morning of *The Day of the Dead*, of his estranged wife Yvonne. His half-brother Hugh, and his husband's friend Enrique Larragoiti, both of whom are in love with Yvonne, are the other principal actors in this dark drama of a man's inability to defeat the misery he has in himself or to seize the opportunity that offered him to save himself. (The last chapter takes place one year later than the main action, and in it all the important themes of the novel are introduced.)

*Under the Volcano* is a terse and dramatic treatment in its surface level, but the reader will be aware of the deeper significance of which the characters and their actions are symbols.
