UNDERSTANDING

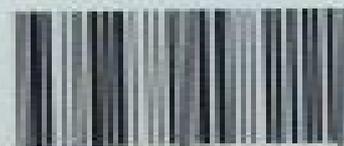

Gary Snyder

by Patrick D. Murphy

Murphy examines all of Snyder's poetry and prose volumes from *Riprap* (1959) through *The Practice of the Wild* (1990), including the Pulitzer Prize-winning *Turtle Island* (1974). The works are treated in chronological order, with attention given to the connections between the poetry volumes, upon which Snyder's reputation primarily rests, and the prose volumes. The introduction summarizes Snyder's career and provides an overview of the three factors crucial to his works: Buddhism, ecology, and "field-composition" poetics of contemporary free verse. Previous critics have not fully recognized the extent to which these interpenetrate.
