Understanding And Using Paradox 30:

Thinking with Kierkegaard Arne Grøn, 2022-12-31 Arne Grøn's reading of Søren Kierkegaard's authorship revolves around existential challenges of human identity. The 35 essays that constitute this book are written over three decades and are characterized by combining careful attention to the augmentative detail of Kierkegaard's text with a constant focus on issues in contemporary philosophy. Contrary to many approaches to Kierkegaard's authorship, Grøn does not read Kierkegaard in opposition to Hegel. The work of the Danish thinker is read as a critical development of Hegelian phenomenology with particular attention to existential aspects of human experience. Anxiety and despair are the primary existential phenomena that Kierkegaard examines throughout his authorship, and Grøn uses these negative phenomena to argue for the basically ethical aim of Kierkegaard's work. In Grøn's reading, Kierkegaard conceives human selfhood not merely as relational but also a process of becoming the self that one is through the otherness of self-experience that is the body, the world, other people, and God. This book should be of interest to philosophers, theologians, literary studies scholars, and anyone with an interest not only in Kierkegaard but also in human identity.

Transcendence and Understanding Zdenko S. Sirka, 2020-03-04 This book brings into conversation Western and Orthodox hermeneutical schools, one represented by Hans Georg Gadamer and his followers while the other school is less focused around one person and yet displays common distinct features. The main question of the book is how we can mediate not only the content of understanding of who we are in relation to each other, to the world in which we live, and to God, but also comprehend the process of understanding across various historical periods. The strengths and weaknesses of both positions are presented, and it is shown how these two hermeneutical approaches can enrich each other. The book argues that preserving both positions and indicating how they complement each other helps show the limits of encountering the transcendent reality that can be testified to by human language without being reduced to it as such.

A Wittgensteinian Way with Paradoxes Rupert Read, 2012-10-25 *A Wittgensteinian Way with Paradoxes* examines how some of the classic philosophical paradoxes that have so puzzled philosophers over the centuries can be dissolved. Read argues that paradoxes such as the Sorites, Russell's Paradox, and the paradoxes of time travel do not in fact need to be solved. Rather, using a resolute Wittgensteinian therapeutic method, the book explores how virtually all apparent philosophical paradoxes can be diagnosed and dissolved through examining their conditions of arising to loosen their grip and therapeutically liberate those philosophers suffering from them, including oneself. The book contrasts such paradoxes with real-lived paradoxes, paradoxes that are genuinely experienced outside of the philosopher's study in everyday life. Thus, Read explores instances of lived paradox, such as paradoxes of self-hatred and of denial of other humans, humanity, and the harm they can cause psychically, morally, or politically. These lived paradoxes, he argues, sometimes cannot be dissolved using a Wittgensteinian treatment. Moreover, in some cases, they do not need to be for some, such as the paradoxical practices of Zen Buddhism and indeed of Wittgenstein himself, can in fact be beneficial. The book shows how once philosophers' paradoxes

have been exorcized real lived paradoxes can be given their due **Kierkegaard as Humanist** Arnold B. Come,1995-07-05 Kierkegaard as Humanist is an extensive analysis of Kierkegaard s concepts of self freedom possibility and necessity Topics examined include the essential and continuing duality of the self the process by which the self becomes self consciousness freedom as the dialectical tension between necessity and possibility and between temporality and eternity the indeterminate determinate leap as freedom s form and love as freedom s content Come finds in Kierkegaard s writings an anthropological ontology that is derived by a phenomenological method and distinct from those Kierkegaardian materials that are clearly theological in a Christian sense he concludes that Kierkegaard s anthropological ontology is independent of his Christian theology [Basil of Caesarea, Gregory of Nyssa, and the Transformation of Divine Simplicity](#) Andrew

Radde-Gallwitz,2009-10 Divine simplicity is the idea that as the ultimate principle of the universe God must be a non composite unity not made up of parts or diverse attributes Radde Gallwitz explores how this idea was appropriated by early Christian theologians from non Christian philosophy with particular reference to Basil of Caesarea and Gregory of Nyssa
