Drew, 1988 Children with Emotional and Behavioral Disorders Marianne Celano, 2018-03-22 This concise book is for students and therapists who wish to develop competencies in family therapy and systemic practice with children. Using a fictional clinical case, the book describes the contributions of couple and family psychology CFP to the understanding and treatment of emotional and behavioral disorders among children ages 2 to 12. CFP competencies are presented and applied to the case of a nine-year-old girl with school refusal and behavior problems. The book describes how a systemic perspective affects clinical decisions from intake to treatment termination. Specific competencies discussed include scientific knowledge, assessment, evidence-based practice, intervention, individual and cultural diversity, ethical and legal standards, and reflective practice. **Social-Emotional Prevention Programs for Preschool Children's Behavior Problems** Catrinel Alice Ștefan, 2018-03-13 This book is aimed at exploring the relevance of social emotional competencies for preventing preschool children's behavior problems. The content provides an overview of how evidence from fundamental research on social emotional competencies can be translated in applied research for developing prevention programs. The Social Emotional Prevention program framework is presented as a multi-focused child-teacher-parent hybrid approach for both high-risk and non-risk preschoolers. The book offers a systematic and in-depth evaluation of SEP efficacy including classroom, risk-group, and individual-level effects. Hence, the proposed approach employs different research designs and statistical methods to explore how behavioral changes occur as a result of children's participation to the intervention. Each study's findings are discussed in terms of corresponding implications for practice in schools but also from a broader perspective including implications for policy makers in the field of early education.
