

FUTURES

Before Trading

Find the broker who works best for you based on price and services, and open a new account. Fees vary.

During Trading

The futures markets typically provide high leverage. This means you only need to put in a low percentage of the contract's value as initial margin in cash when entering a trade.

At the end of every trading day,

- If the contract fell in value, your broker will take money out of your account to maintain the initial margin requirement.
- If the contract grew in value, your broker will add the increased amount in cash to your account.

After Trading

To avoid taking physical delivery of the underlying asset, you will likely need to close your position before expiration.
