Understanding Greece:

Modern Greece Elaine Thomopoulos,2021-11-05 There s more to Greece than its legacy as the birthplace of democracy and Western Philosophy Discover what life is like in this contemporary European nation Historic and Contemporary European-Iranian Relations Ehsan Bakhshandeh,2024-07-05 This book is about relations between Iran and Mediterranean Europe as cradles of two of the world s most ancient civilizations and it presents a prodigious and illuminating discussion of those ancient world issues in the context of today s geopolitics Building on this ancient world civilizational clash of Empires it offers an overview of the link and significant political equations between the Mediterranean and Middle East regions in the past four decades a field which has remained understudied in academic circles This book also provides a full description of relations between Iran and Southern Europe after the 1979 Iranian revolution and investigates how these relations have affected both domestic and international politics The book addresses in some depth developments on Iran s nuclear issues and Greece s post crash financial crisis and how the two countries collaborated to deal with difficulties and hardships including sanctions and oil tanker crisis The author provides a first hand description and analysis of developments after the US withdrawal from the Iran nuclear deal JCPOA under the Trump administration in 2018 It also provides important insights into the influence of external players and alliance building in the Mediterranean and the impact on Iran s relations with the wider world and geopolitics of the Middle East after the normalization of ties between Israel and several Arab states under the Abraham Accords It also provides important insights into the influence of external players in the Mediterranean and the impact on Iran s relations with the wider world and geopolitics of the Middle East after the normalization of ties between Israel and several Arab states under the Abraham Accords This unusual and important perspective will be vital reading for researchers and students of politics international relations and conflict Greekonomics Vicky Pryce,2012-10-15 The eurozone is in crisis Spiralling debts defaulting banks high unemployment the European dream of a united union appears to be over All fingers point to the corrupt and greedy PIIGs Portugal Ireland Italy Greece and Spain Profligate governments have exploited the system squandered the benefits and now beg for bail outs from those that prosper But is it really that simple Economist Vicky Pryce argues that given the flaws at its conception the eurozone has been doomed from the very start Politicians ignored common sense and deliberately created a system based on political not economic motives They failed to provide firewalls for inevitable crises and placed little emphasis on practical structural reforms for the countries that needed them It was a recipe for disaster and Europe now reaps the whirlwind Is it time for a Greek exit Focusing on Greece not only her home country but perceived as the main threat to the euro s survival Pryce explores the history of the eurozone the causes of the crisis and damning the proposed official solutions as counterproductive suggests a way out of the current mess **The Collected Works of Lt.
