Cantigas de Santa Maria, de Don Alfonso El Sabio Alfonso X (King of Castile and Leon), 1889 **Poets, Patronage, and Print in Sixteenth-Century Portugal** Simon Park, 2021-06-24 Portugal was not always the best place for poets in the sixteenth century Against the backdrop of an expanding empire the country s annexation by Spain in 1580 and ongoing religious controversy poets struggled to articulate their worth to rulers and patrons This did not prevent them however from persisting in their craft Indeed many of their works reflected precisely on the question of what poetry could do and what ultimately its value was The answers that poets like Lu s de Cam es Francisco de S de Miranda Ant nio Ferreira and Diogo Bernardes offered to these questions and which are explored in this book ranged from lofty ideals to the more practical concerns of making ends meet when one depended on the whims of the powerful This volume articulates a pragmatics of poetry that combines literary analysis and book history with methods from sociology network analysis sociology of professions valuation studies to explore how poets thought about themselves and negotiated the value of their verse in the court with patrons or in the marketplace for books It reveals how poets compared their work to that of lawyers and doctors and tried to set themselves apart as a special group of professionals It shows how they threatened their patrons as well as flattered them and tried to turn their poetry from a gift into something like a commodity or service that had to be paid for While poets set out to write in the most ambitious genres and to better their European rivals they sometimes refused to spend months composing an epic without the prospect of reward Their books of verse when printed were framed as linguistic propaganda as well as objects of material and aesthetic worth at a time when many said that non devotional poetry was a sinful waste of time This is a book about the various ways in which poets metaphorically and more literally tried to turn poetry and the paper it was written on into gold **Antología de Poetas Hispano-americanos Publicada Por la Real Academia Española: México y América Central** Marcelino Menéndez y Pelayo, 1893

Calíope ,2002 **El P. Arolas, su vida y sus versos** José Ramón Lomba y Pedraja, 1898 *Leading Ladies* Yvonne Fuentes, Margaret R. Parker, 2006-03-01 Written by Hispanic and non Hispanic scholars these twelve essays six in English and six in Spanish disclose how over the

past four centuries static and formulaic images of women in Hispanic art and literature have given way to lively and original portrayals. The leading ladies explored in this volume include women who are objects of the male gaze, women who gaze upon the male body, women who are characters, and women who are writers, painters, and filmmakers. The essayists offer a panorama that stimulates the senses and challenges assumptions as they reveal strategies used by both male and female writers and artists to unmask conventions, identify spaces, and remake paradigms.

Marina Mayoral's introduction traces the representation of the beloved woman in Spanish lyric poetry from the Middle Ages to the present. The contributors and topics that follow include Amy Robinson on the silencing of female voices such as those of Cecilia Valdés and Carmen Vilma Navarro Daniels on the writer and historian Carmen Martín Gaité, Lynn Walford's analysis of Mario Vargas Llosa's leading ladies, Katherine Ford's exploration of Chicana writer Gloria Anzaldúa's *Borderlands/La Frontera*, Julia Carroll on Puerto Rican writer Giannina Braschi, George Thomas on the poetry of the seventeenth-century Mexican poet Sor Juana Inés de la Cruz, Alison Tatum Davis on Carmen Laforet's *Nada*, Mónica Jato's examination of three female characters from Alfonso Sastre's trilogy *Los crómenes extraños*, Caryn Connelly on the collaborations of Mexican scriptwriter Paz Alicia Garciadiego and film director Arturo Ripstein, Sharon Keefe Ugalde on cinema gender referents in the work of certain Spanish women poets, Carmen García de la Rasilla's study of female surrealist artists, and Mayte de Lama on three short story characters of the fiction writer Marina Mayoral. Covering numerous genres reaching across three continents and using a variety of critical strategies, *Leading Ladies* presents a dazzling array of artistic endeavors in which women are of central importance.

The Positive Image of the Jew in the 'comedia' Andrew Herskovits, 2005. Argues contrary to most scholarly opinion that while on the explicit level they are anti-Jewish in a covert manner, the dramatic works of the Spanish Golden Age present a positive image of the Jews. Works by Rojas Cervantes and especially Lope de Vega are shown to have used coded writing and techniques of dissimulation to subvert the dominant anti-Jewish ideology of the day embodied in the actions of the Inquisition and in the *limpieza de sangre* statutes. A reason for the indirect approach was that the writers, who were influenced by Christian Humanism rather than by any putative Converso origin, themselves sought to escape interrogation by the Inquisition. One technique used was to replace the Converso by the figure of a persecuted woman or by a biblical legendary or foreign Jew. Defending the Jews was an aspect of espousal of justice for all.
