Very Important Story:

The Most Important Stories of the Bible Christopher D. Hudson, Stan Campbell, 2019-07-02 Most of us are familiar with the exciting adventures of David and Goliath Noah or Daniel in the lions den but we don't always understand how they fit together We lack context and so we sometimes miss the point The Most Important Stories of the Bible will give you a working knowledge of the key events in Scripture and how they flow into one big story The book's 75 stories are compact easy to read and enjoyable Each chapter includes a brief introduction that gives historical context to help you grasp the overall narrative of the Bible and concludes with an explanation of why that story matters in our lives There's a reason most of the Bible is made up of stories They speak to us in a deep way helping us internalize God's message And in the end understanding the stories of God's Word will help us connect more closely to Jesus the greatest storyteller of all The Power of Story Jim Loehr, 2007-09-18 New York Times bestselling coauthor of The Power of Full Engagement examines the way we tell stories about ourselves to ourselves and most importantly the way we can change those stories to transform our business and personal lives Your story is your life says Loehr As human beings we continually tell ourselves stories of success or failure of power or victimhood stories that endure for an hour or a day or an entire lifetime We have stories about our work our families and relationships our health about what we want and what we're capable of achieving Yet while our stories profoundly affect how others see us and we see ourselves too few of us even recognize that we're telling stories or what they are or that we can change them and in turn transform our very destinies Telling ourselves stories provides structure and direction as we navigate life's challenges and opportunities and helps us interpret our goals and skills Stories make sense of chaos they organize our many divergent experiences into a coherent thread they shape our entire reality And far too many of our stories says Loehr are dysfunctional in need of serious editing First he asks you to answer the question In which areas of my life is it clear that I cannot achieve my goals with the story I've got He then shows you how to create new reality based stories that inspire you to action and take you where you want to go both in your work and personal life For decades at the Human Performance Institute Loehr has been examining the power of story to increase engagement and productivity and Fortune 500 companies have paid millions to send employees to his program in which he applies the principles and methods that he now offers in this book Global business leaders world class athletes military special forces and thousands of individuals from every walk of life have sought out and benefited from his life altering insight and expertise Our capacity to tell stories is one of our profoundest gifts Loehr's approach to creating deeply engaging stories will give you the tools to wield the power of storytelling and forever change your business and personal life **The Global Journalist in the 21st Century** David Hugh Weaver, Lars Willnat, 2012 This book updates the original Global Journalist 1998 volume with new data adding more than a dozen countries and providing material on comparative research about journalists that will be useful to those conducting their own studies **Film and Genocide** Kristi M. Wilson, Tomás F. Crowder-Taraborrelli, 2012-01-04 Film

and Genocide brings together scholars of film and of genocide to discuss film representations both fictional and documentary of the Holocaust the Armenian genocide and genocides in Chile Australia Rwanda and the United States Since 1955 when Alain Resnais created his experimental documentary Night and Fog about the Nazis mass killings of Jews and other ostracized groups filmmakers have struggled with using this medium to tell such difficult stories to re create the sociopolitical contexts of genocide and to urge awareness and action among viewers This volume looks at such issues as realism versus fiction the challenge of depicting atrocities in a manner palatable to spectators and film distributors the Holocaust film as a model for films about other genocides and the role of new technologies in disseminating films about genocide Film and Genocide also includes interviews with three film directors who discuss their experiences in working with deeply disturbing images and bringing hidden stories to life Irek Dobrowolski director of The Portraitist 2005 a documentary about Wilhelm Brasse an Auschwitz Birkenau prisoner ordered to take more than 40 000 photos at the camp Nick Hughes director of 100 Days 2005 a dramatic film about the Rwandan mass killings and Greg Barker director of Ghosts of Rwanda 2004 a television documentary for Frontline
