Architectural Technicities Stavros Kousoulas, 2022-07-15 This book poses a simple question how is this architecture possible To respond it will embark on a captivating journey through many singular architectural concepts The entasis of Doric columns Ulysses and desert islands will outline an architectural act that moves beyond representation A ferryman who stutters will present two different types of architectural minds A stilus and a theory of signs will reconsider the ways architects can develop a particular kind of intuition while architectural technicities will bring forth a membranistic and territorial understanding of architecture Finally as a melody that sings itself a larval architecture will be introduced bringing space and time together Assisting this endeavour the thought of philosophers like Gilles Deleuze Felix Guattari Gilbert Simondon and Raymond Ruyer will meet the latest developments in fields like affect theory cognitive sciences environmental studies and neuroanthropology Eventually by the end of this book the readers from architecture students and researchers to academics and practitioners with an interest in theory will have been exposed to a comprehensive and original philosophy of architecture and the built environment Artificial Intelligence and Literary Creativity Selmer Bringsjord, David Ferrucci, 1999-09-01 Is human creativity a wall that AI can never scale Many people are happy to admit that experts in many domains can be matched by either knowledge based or sub symbolic systems but even some AI researchers harbor the hope that when it comes to feats of sheer brilliance mind over machine is an unalterable fact In this book the authors push AI toward a time when machines can autonomously write not just humdrum stories of the sort seen for years in AI but first rate fiction thought to be the province of human genius It reports on five years of effort devoted to building a story generator the BRUTUS 1 system This book was written for three general reasons The first theoretical reason for investing time money and talent in the quest for a truly creative machine is to work toward an answer to the question of whether we ourselves are machines The second theoretical reason is to silence those who believe that logic is forever closed off from the emotional world of creativity The practical rationale for this endeavor and the third reason is that machines able to work alongside humans in arenas calling for creativity will have incalculable worth COLLECTED SUPERNOTES John O'Loughlin, 2022-03-16 With his Collected Supernotes author John O Loughlin has combined on a highly abstract basis material derived from the independently published titles Devil and God The Omega Book From Materialism to Idealism Towards the Supernoumenon Elemental Spectra Critique of Post Dialectical Idealism Philosophical Truth Veritas Philosophicus and Last Judgements which span the period 1985 93 with a view to bringing some kind of strict chronology to bear on a series of writings dubbed supernotational to distinguish them from essays on the one hand and aphorisms on the other thereby allowing him to establish a kind of intermediate position between essays and aphorisms in the interests of what became a gradual progression towards an enhanced sense of philosophical logic commensurate so he believes with Supertruth and ultimately with a kind of plateau of aphoristic purism A Centretruths Editorial **Last Judgements** John

O'Loughlin,2022-04-23 As suggested by its title LAST JUDGEMENTS is the last of the so called supernotational volumes of loosely aphoristic material stemming from Devil and God the Omega Book 1985 6 and is a kind of summing up of and in some sense elaboration upon various of the themes previously explored However it would be wrong to underestimate the original aspects of this project which though comparatively short paved the way for a kind of aphoristic purism more supra egocentrically commensurate with metaphysical truth Literary Year-book and Bookman's Directory ,1909 **Literary Digest** ,1914 *Literary Digest: a Repository of Contemporaneous Thought and Research as Presented in the Periodical Literature of the World* Edward Jewitt Wheeler,Isaac Kaufman Funk,William Seaver Woods,1900 The Oxford Encyclopedia of American Literature Jay Parini,2004 The Encyclopedia of American Literature gathers together 350 essays from over 190 leading scholars on the whole of American literature from European discovery to the present At the core of the Encyclopedia lie 250 essays on poets playwrights essayists and novelists Figures such as Whitman Melville Faulkner Frost and Morrison are discussed in detail with each examined in the context of his or her times an assessment of the writer s current reputation a bibliography of major works and a list of major critical and biographical works about the writer Fifty entries on major works such as Moby Dick Song of Myself Walden The Great Gatsby The Waste Land Their Eyes Were Watching God Death of a Salesman and Beloved place the work in its historical context and offer a range of possibilities with regard to critical approach The Encyclopedia also contains essays on literary movements periods and themes pulling together a broad range of information and making connections between them Each entry has its own primary and annotated secondary bibliography and a system of cross references helps readers locate information with ease The Encyclopedia of American Literature is an outstanding reference source for students studying authors or particular pieces of literature libraries looking for one comprehensive source and readers interested in American literature its authors and its connection with various areas of study **The Literary Year-book** Frederick George Aflalo,Joseph Jacobs,Herbert Arthur Morrah,Henry Gilbert,Basil Stewart,Mark Meredith,1910 **The Literary Digest** ,1916 *The Saturday Review of Politics, Literature, Science and Art* ,1911 *The Saturday Review of Politics, Literature, Science, Art, and Finance* ,1908 **International Literary Market Place** R R Bowker Publishing,1990 The Publishers Weekly ,1930 The Reader's Digest of Books Helen Rex Keller,1917 **Critic and Good Literature** ,1885 **International Literary Market Place.
