Historia de los intelectuales en América Latina Carlos Altamirano,Jorge Myers,2008 Las lites culturales han sido actores importantes de la historia de Am rica Latina Procediendo como bisagras entre los centros que obraban como metr polis culturales y las condiciones y tradiciones locales desempe aron un papel decisivo no s lo en el dominio de las ideas del arte o de la literatura del subcontinente sino tambi n en el dominio de la historia pol tica Si se piensa en el siglo XIX no podr an describirse adecuadamente ni el proceso de la independencia ni el drama de nuestras guerras civiles ni la construcci n de los estados nacionales sin referencia al punto de vista de los hombres de saber a los letrados id neos en la cultura escrita y en el arte de discutir y argumentar Sin embargo aunque su labor y pensamiento son bastante conocidos no contamos con una historia de la posici n de los hombres de ideas en el espacio social de sus asociaciones y sus formas de actividad de las instituciones y los campos de la vida intelectual de sus debates y de las relaciones entre poder secular y poder espiritual para utilizar la distinc i n introducida por Comte Hay excelentes estudios sobre casos nacionales pero no exist a hasta el presente una historia general Historia de los intelectuales en Am rica Latina la importante obra dirigida por Carlos Altamirano propone este acercamiento en una perspectiva que est tambi n atravesada por la g nesis y la historia de las transformaciones del uso del concepto de intelectual Este primer volumen analiza la historia espec fica contextualizada de los intelectuales latinoamericanos durante los cuatro primeros siglos de historia de Am rica

Latina ya que si bien fue en el siglo XIX cuando se verificó junto con los movimientos de independencia el largo pasaje de las minorías letradas a las nuevas categorías intelectuales era necesario incorporar una sección consagrada a la gente de saber en la era colonial para mejor poner en evidencia los elementos de ruptura con el letrado colonial. Fruto de la colaboración de estudiosos de más de una generación y de diferentes disciplinas desde la historia política a la historia de la literatura latinoamericana pasando por la sociología de la cultura y la historia de las ideas. Historia de los intelectuales en América Latina busca abrir un campo indagar interrogantes plantear hipótesis que sirvan para orientar investigaciones futuras tanto como hacer un aporte para la comprensión de nuestro tiempo.

Las Raras Sarah Moody, 2024-05-30

Premio al Mejor Libro Latin American Studies Association Nineteenth Century Section 2025

Las Raras proposes that the Modernistas advocacy for a writing style they considered feminine helps us to understand why so few and perhaps no women were accepted as active participants in Modernismo. Author Sarah Moody studies how particular writers contributed to the idea of a feminine aesthetic and tracks the intellectual networks of Modernismo through periodicals and personal papers such as albums and correspondence. Buenos Aires, Paris and Montevideo figure prominently in this transatlantic study which reexamines some of the most important period writers in Spanish including Rubén Darío, Amado Nervo and Enrique Gómez Carrillo. This book also considers the critiques launched by women writers such as Aurora Caceres, Clorinda Matto de Turner and María Eugenia Vaz Ferreira who experienced Modernista exclusion firsthand, deconstructed the Modernista discourse of a modern feminine style and built literary success in alternative terms. These writers reoriented the discussion about women in modernity to address women's education, professionalization and advocacy for social and civic improvements. In this study Modernismo emerges as both a literary style and an intellectual network in which style and sociability are mutually determining and combine to form a system of prestige and validation that excluded women writers.
