Highlights in the History of Reading, Pennsylvania Charles J. Adams III, Editor, 2022-12-31 This book is a collection of stories from the researchers and writers of the Berks History Center's quarterly journal *The Historical Review of Berks County*. It is not a history book in the classical definition, more so a collection of informative and entertaining feature stories. You will discover the backstories of familiar city landmarks and be introduced to fascinating men and women who have left their marks on the social, sporting, industrial, entertainment, and cultural elements of life in the city of Reading. 224pp, illus. Masthof Press, 2022.

Highlights of Nitrogen Fixation Research Esperanza Martínez, Georgina Hernández, 2012-12-06 For 31 years the North American Symbiotic Nitrogen Fixation Conference, formerly Rhizobium Conference, has been a forum for scientists and graduate students to discuss their research advances, extending from basic aspects to agricultural applications and dealing with topics ranging from bacterial genetics and metabolism to plant genetics and physiology. Nitrogen fixation, being a major life-supporting process on this planet, has attracted the interest of researchers for more than one century. Nitrogen fixation is responsible for the conversion of inert dinitrogen (N_2) gas from the atmosphere into usable ammonia, replacing the fixed nitrogen constantly being lost to the atmosphere by the denitrification process. Worldwide agricultural productivity is determined by the availability of fixed nitrogen in all its forms, which the continually increasing human population depends upon for survival. An international momentum is developing in the use of biofertilizers to improve legume and non-legume crop yields and in the study of genomics in this area. New studies are being undertaken in several laboratories to study novel nitrogen-fixing systems, including non-legume crops. The North American Conferences on Symbiotic Nitrogen Fixation have periodically chronicled the advances in our knowledge of this area. For the first time, this conference was held in Mexico. Thus, all three North American countries have been hosts for this event. This year's conference brought nearly 200 scientists from 18 different countries, presenting lectures and over 80 posters. The present volume contains the texts of the three invited Discourses and of the papers presented during seven Joint Discussion Meetings and eight Joint Commission Meetings. The invited Discourses were arranged by the IAU Executive Committee, and the Joint Discourses and Commission Meetings by the respective chairpersons. The overall responsibility of the General Assembly was carried out by the IAU General Secretary, 1988–1991, Dr. D. McNally. I am indebted to the authors of the invited Discourses to the organizers and editors of the scientific sessions for having provided me with all the material for publication in due time. I want to particularly acknowledge the case with which Dr. J. H. Hughes, who unfortunately died a few days ago from cancer, prepared and checked until the last few weeks the report on the new IAU Reference System. This report itself concludes

long and difficult discussions among IAU members that he led in a wise and clear sighted manner

Highlights of Astronomy C. de Jager, 2012-12-06 After the same pattern as the XIII th General Assembly of the International Astronomical Union the present Volume of the Highlights in Astronomy contains the texts of the invited discourses given at the XIVth General Assembly held in Brighton England August 1970 It contains further the papers and discussion remarks presented at the six joint discussions as well as the invited papers given at the special session on the Moon In addition this Volume contains the papers given at the joint meeting of Commissions 24 27 30 33 and 37 on RR Lyrae Stars It goes without saying that the nearly hundred papers printed in this Volume represent only a minor part of all matter dealt with at the XIVth General Assembly of the Union the many important discussions that took place in a few hundred commission meetings are not included For short abstracts and reviews of these the reader is referred to Transactions of the International Astronomical Union XIVB I wish to thank those who contributed to this Volume for the speed in submitting the manuscripts of their papers This together with the efficiency of the Publishers allowed for a rapid publication

Highlights in Solute-Solvent Interactions Wolfgang Linert, 2012-12-06 Most organic molecules retain their integrity when dissolved and even though in such cases the effects exerted by solvents are in the language of the coordination chemist of the outer sphere kind the choice of solvent can be critical to the successful outcome of an operation or preparation Solubilities of reactants and products must be taken into account and even if the organic principals in the reactions retain their integrity many of the reagents are electrolytes and their state of aggregation will affect their reactivity In testifying to the importance of understanding solute solvent interactions I draw attention to a large class of inorganic species for which the involvement in the chemical and physical properties by the solvent is even more deeply seated It is comprised by the large body of metal atoms in low oxidation states for which solvent molecules intervene as reagents At the same time because the ions carry charges the effects arising from outer sphere interactions are usually greater than they are for neutral molecules To cite an example when FeCl_3 is dissolved in water to form a dilute say 0.10 M solution there is a complete reorganization of the coordination sphere of the cation Whereas in the solid each cation is surrounded by six chloride ions in the solution the dominant form is $\text{Fe}(\text{H}_2\text{O})_6^{3+}$ followed by $\text{Fe}(\text{H}_2\text{O})_5\text{Cl}^{2+}$, $\text{Fe}(\text{H}_2\text{O})_4\text{Cl}_2^+$ etc in rapidly decreasing abundance

California. Court of Appeal (1st Appellate District). Records and Briefs California (State)., *Voices of the Down and Out* Martin Butler, 2007 Woody Guthrie's songs about the Dust Bowl Migration and the Great Depression give expression to one of the bleakest periods in the history of the United States bearing witness both to the economic and political turmoil and to the human erosion of the 1930s Following a New Historicist approach this study

incorporating a variety of previously unpublished materials sets out to reconstruct the social and cultural potential of Guthrie's songs by exploring their manifold and intricate relationships with the cultural environment in which they were composed and performed. As a result, Guthrie's songs are shown to be deeply ingrained in the decade's culture; they criticize the deplorable social and political situation at the time, make sense of the incomprehensible, and hint at those responsible for the disaster, thus amplifying the unheard voices of the down and out. By revealing that Guthrie's oeuvre was not only culturally produced but also culturally productive in that it took an active part in shaping, perpetuating, or undermining elements and patterns of the decade's cultural knowledge, the study also sheds new light on the social and cultural significance of the sung word.

Gender Practices in Contemporary Vietnam Lisa Barbara Welch Drummond, Helle Rydstrom, 2004

Confucianism, colonialism, and socialism have all contributed significantly to gender relations in Vietnam. More recently, political and social change associated with modernization and globalization have also had an impact. How do the Vietnamese display their social positions and their identities as male or female? This volume examines negotiations and transgressions of gender within Vietnamese society, looking at gender, family, social, and work relations. It boldly displays body language and the occupation of space. Of special interest is a discussion of sexual harassment in schools and the workplace and the strategies women adopt to deal with it, the first discussion of this issue by a Vietnamese scholar.

The Zimmern Chronicle Erica Bastress-Dukehart, 2002

This book brings the history of the Zimmern family to English readers for the first time. In it, the author not only offers a new solution to the problem of the text's authorship but examines the chronicle in the context of broader current debates, including the problem of the relationship of the early modern German nobility to the state, memory studies, and self-representation. The author portrays the Zimmern Chronicle as far more than just a family history. She argues that because the Zimmern authors filled their work with legends, sexual tales, and farcical stories of daily life in Southwest Germany, they proved themselves adept at offering their readers puzzles to solve, of sparking imagination and stimulating curiosity. In short, they developed a number of memory devices intended to make certain that their audience, once engaged, would read their work to its conclusion.
