Words On Beauty:

Beauty and the Gods Hugo Shakeshaft,2025-03-25 How ideas and experiences of beauty informed human relationships with the divine in ancient Greece Beginning with the earliest Greek literature the epics of Homer and Hesiod beauty was seen as having a special connection with the divine The gods of ancient Greece were defined by their exceptional beauty even today to look like a Greek god is proverbial for human beauty In *Beauty and the Gods* Hugo Shakeshaft explores the relationship between the beautiful and divine in ancient Greece principally in the Archaic period ca 750 480 BCE Analysing evidence that ranges from poetry art and philosophical texts to architecture and the natural landscape Shakeshaft shows how ideas and experiences of beauty shaped Greek relations with the divine With a powerful call for the place of beauty and aesthetics in the writing of history Shakeshaft uncovers the cultural dialogue between beauty and the gods in a variety of contexts in the Archaic Greek world in forms of divine worship in poetry music and dance in attitudes to the natural environment and in architecture and art This early chapter of Greek history he argues holds an unrecognised key to understanding some long running threads in the histories of religion art and aesthetics from Plato s aesthetic theories to beauty s status in contemporary discourse Beauty s deep past and divine connection in ancient Greece can help us see beauty now in sharper focus *“The” Theatrical world* ,1898 **The Rhetorlogue** John Demosthenes N. Ruffin,1922 [The New Statesman](#) ,1919 [Life Now](#) Jansher,2024-07-30 The capability of today s man has become so narrow that it is painful to imagine Today s human life is reduced to working eating sleeping and reproducing First they placed today s man in a certain place then gave him the wrong values National values patriotism ideological values They caught him at a certain point They closed all avenues for him They took away his chances Today s man knows nothing about life He sees nothing of creation Today s man never knows how far the beauty of nature and divine creation is spread He knows nothing Because his whole life is spent fighting over things that are all lies and illusions his life is wasted fighting and struggling with his comrades He never gets anywhere That is why he is in agony Then few people take advantage of the facilities and the nations beat each other over the head they are busy enjoying life and creation The sole mission of humanity today is to provide land for certain groups to live on Human slavery today has become so brilliant that it has almost assumed the color of sanctity and godliness In the name of knowledge and education he learns the art of slavery in the first half of his life and in the second half he does his slavery They call it alive **The Grammar of ‘God’ in Judaism, Christianity and Islam** Farid Suleiman,Mira Sievers,2024-08-06 Engendering an intimate and deep relationship with God is at the heart of Judaism Christianity and Islam This relationship manifests among other things in worshipping Him with sincerity talking to and about Him and being conscious of Him in every moment of life For believers God himself plays also an active role in pursuing this relationship by for example answering prayers and making the believer know and feel His uninterrupted presence Many would consider this as common knowledge about the religions mentioned above However only few are aware that the meaning of the above

differs significantly based on how one thinks that religious language works. Rather, it is taken for granted that the word God refers to a metaphysical being with personal traits and plays a similar role in structure as words in empirical language. This has several implications such as the following: God can be talked about in an abstract and theoretical manner. His existence can be subject to inquiry like that of any other being such as planets or unicorns, and calling God good while creation is obviously full of evil is a proposition that needs rational justification. The famous 20th century thinker Ludwig Wittgenstein has famously stated that his goal in philosophy essentially amounts to showing that things which look the same are really different. By his insistence to pay close attention to the grammar of a word that is its use in language, he has opened up new perspectives on not only religious language that challenges the prevalent view outlined above. The goal of this volume is to pick up on Wittgenstein's insights about language and religion and to bring them in fruitful relation to the three mentioned religious traditions respectively in an attempt to reassess the grammar of the word God.

The Academy, 1910
A Confusion of the Spheres Genia Schönbaumsfeld, 2007-09-27
Allusions to the relation between Kierkegaard and Wittgenstein are common in philosophy but there has been little serious commentary on the relationship of their ideas. Genia Schönbaumsfeld closes this gap and offers new readings of Kierkegaard's and Wittgenstein's intriguing and influential conceptions of philosophy and religious belief.
