Words Things:

Beyond Words, Things, Thoughts, Feelings Ha Poong Kim, 2011 What is the nature of aesthetic experience Ha Poong Kim suggests that a genuine aesthetic experience is a perceptual state of consciousness free of thought He characterises it as subjectless objectless timeless revelatory and joyous It is a state of mind thus markedly different from our everyday experience where thought processes impinge randomly on our consciousness The seven essays are divided to three parts Part I tackles the nature of aesthetic experience as opposed to everyday perception and attempts to illuminate the experience of the beautiful by discussing Plato s famous allegory of the charioteer in Phaedrus and an episode in Proust s *In the Shadow of Young Girls in Flower* the second section of *In Search of Lost Time* Part II takes a critical look at Kant s treatment of the judgement of taste in his *Critique of Judgement* and Eduard Hanslick s conception of the imagination Part III details Kim s thoughts on several topics of the current debate in aesthetics among them on the difference between aesthetic and intellectual pleasure and the nature of expressiveness of music In the first of the two essays in Part III the author discusses critically Christopher Butler s interpretation of artworks as narrative and in the second Peter Kivy s theory of expressive properties Two appendices are provided one on the alienation of aesthetic experience in the common love of artworks as values and the other on performance art as an art form especially in view of the recent retrospective of Marina Abramovic MoMA New York In this appendix the author presents a critique of today s prevailing conception of art

Japanese Philosophy James W. Heisig, Thomas P. Kasulis, John C. Maraldo, 2011-07-31 With *Japanese Philosophy* A Sourcebook readers of English can now access in a single volume the richness and diversity of Japanese philosophy as it has developed throughout history Leading scholars in the field have translated selections from the writings of more than a hundred philosophical thinkers from all eras and schools of thought many of them available in English for the first time The Sourcebook editors have set out to represent the entire Japanese philosophical tradition not only the broad spectrum of academic philosophy dating from the introduction of Western philosophy in the latter part of the nineteenth century but also the philosophical ideas of major Japanese traditions of Buddhism Confucianism and Shinto The philosophical significance of each tradition is laid out in an extensive overview and each selection is accompanied by a brief biographical sketch of its author and helpful information on placing the work in its proper context The bulk of the supporting material which comprises nearly a quarter of the volume is given to original interpretive essays on topics not explicitly covered in other chapters cultural identity samurai thought women philosophers aesthetics bioethics An introductory chapter provides a historical overview of Japanese philosophy and a discussion of the Japanese debate over defining the idea of philosophy both of which help explain the rationale behind the design of the Sourcebook An exhaustive glossary of technical terminology a chronology of authors and a thematic index are appended Specialists will find information related to original sources and sinographs for Japanese names and terms in a comprehensive bibliography and general index Handsomely presented and clearly organized

for ease of use Japanese Philosophy A Sourcebook will be a cornerstone in Japanese studies for decades to come It will be an essential reference for anyone interested in traditional or contemporary Japanese culture and the way it has shaped and been shaped by its great thinkers over the centuries
