The Climax:

Out of Order Ross Hockrow, 2014-06-25 Most video and film editors understand that the story is central to their work and that editing choices need to serve the telling of that story in the best way possible What they may not know however are all the valuable techniques to making this craft appear seamless and part of the busy editor's normal workflow This book takes an approach to editing that both beginners and intermediate editors will find refreshing While other books approach the topic of editing by teaching the functions of the editing software this book explains how you can make smart choices and use those functions to affect the story In the book you'll learn workflow tips time saving techniques linear and non linear theory cutting techniques enhancing emotion through music and sound effects leveling and mastering audio color correction and most importantly the role editing can have on the telling of the story Additional techniques are shown through multiple step by step videos available on the author's site as well as clips from a documentary the author created on editing [The Ministry of God's Word](#) Watchman Nee, 1994-09-01 The most important work of God on earth is the speaking out of His word through man In the Old Testament God's word was released through the ministry of the prophets and in the New Testament it was released through the ministry of the Lord Jesus and later through the apostles Even though God is pleased to allow us to speak His word the greatest measure of our usefulness as a minister of the Word is not the amount of our Bible knowledge or even the ability to eloquently present the truth rather it is the degree to which our inward parts have been molded and shaped by the Holy Spirit The Ministry of God's Word contains a series of messages given by Watchman Nee in 1948 and 1949 after nearly thirty years of ministry These messages are deep profound subjective and full of light revealing both the depth of his experience and extent of our need to open to the Holy Spirit's inward operation [Equipment Distributor](#), 1925
