The Color Play:

Piano Color Play Diane Davis, Jeremiah Davis, 2008-11 After Church services adults and children would always come to me and ask how to play the piano Therefore I decided to formulate a method of how to play the piano that does not require music theory The method I created had to be as simple as possible in order to get the student playing the piano immediately Many people are familiar with these basic colors They are red yellow brown orange green purple white and black In this book we will explore many popular tunes with colors and symbols You can play these tunes on any standard piano keyboard with the color piano chart This method for playing the piano will spark interest in learning at any age While doing this we introduce the pupil to some educational fundamentals This book is full of everyday pictures and colors Once interest is accomplished then you can move to the next level in your piano study This method is educational and fun and you will enjoy playing the piano by colors
