Sladkov, 2004-12-01 Perhaps you would like to know how A Topsy Turvy Planet came to be written Well it was this way The launching of the first manned spaceship fired all our youngsters with the ambition to be astronauts And who could blame them Theres such a thrill about the very words stars rockets weightlessness And the prospect of swimming in air as you do in water even head down if you so please And all the surprises sure to be waiting for you on those distant planets all the extraordinary beasts and birds and plants and landscapes so different from all that we are accustomed to seeing here on Earth But I reflected is not our own Earth rich in extraordinary beasts and birds and plants and landscapes And in the most amazing of adventures too Was it not here that Baron Munchausen and Tartarin of Tarascon performed their incredible exploits And both Munchausen and Tartarin pale before my good friend Paramon whose stories and the name Paramon I would have you know means Firm and Reliable whose stories are so fascinating that not even a ticket to the films not even the most exciting of TV programmes can tear the youngsters away when he gets to talking And so I decided to put some of these stories of Paramons into a book for all the youngsters to read because I too like Paramon am convinced that nowhere in creation can you find more beautiful more amazing more interesting a planet than our own Earth Perhaps it is just that I have never visited outer space not even in my dreams that makes me feel that way about it Or perhaps it is simply the deep love I bear to this Earth we live on to its familiar and unfamiliar seas and mountains forests and plains birds and beasts All the books I have written fifteen of them are devoted to Nature as we find her here on Earth Theres one about hunters after bird songs another about mountain trails that lead no one knows where a third about what you can see out of the corners of your eyes a fourth about friendship among birds a fifth about ten used cartridge cases and the memories each of them holds fresh for the hunter Youll know these books if you come across them for their titles reveal their content *Hunting Bird Songs* *Nameless Trail Out of the Corners of Your Eyes* *Bird Friendship* and *Ten Used Cartridges* The remaining ten are of the same type So much for my books As to my own life story theres no room left for that Some other time perhaps N SLADKOV **A Topsy-turvy Planet, Or, Paramon's Incredible Tale of Travel and Adventure** Nikolai Sladkov, 1985 **Giant Gas Planets** Steinkraus, 2014-08-01 In *Giant Gas Planets* Jupiter Saturn Uranus and Neptune students will learn about the four planets farthest from the sun and make observations about patterns and phenomena in the universe Filled with fun facts young learners will love exploring the scientific information and drawing conclusions about life now and in the future The *Inside Outer Space* series takes readers on an intergalactic journey that unravels the mysteries of the universe Each 24 page book informs readers in grades K 3 on the Sun Earth planets and stars while also igniting imaginations about the unknown Stunning photographs and diagrams engage readers while text based questions aid in reading comprehension The Review of Popular Astronomy , 1928

A Columbus of Space Garrett Putman Serviss, 1911 I am a hero worshiper an insatiable devourer of biographies and I say that no man in all the splendid list ever equaled Edmund Stonewall You smile because you have never heard his name for until now his biography has not been written And this is not truly a biography it is only the story of the crowning event in Stonewall s career Really it humbles one s pride of race to see how ignorant the world is of its true heroes Many a man who cuts a great figure in history is after all a poor specimen of humanity slavishly following old ruts destitute of any real originality and remarkable only for some exaggeration of the commonplace But in the case of Edmund Stonewall the world cannot be blamed for its ignorance because as I have already said his story remains to be written and hitherto it has been guarded as a profound secret I do not wish to exaggerate yet I cannot avoid seeming to do so in simply telling the facts If Stonewall s proceedings had become Matter of common knowledge the world would have been I must speak plainly revolutionized He held in his hands the means of realizing the wildest dreams of power wealth and human mastery over the forces of nature that any enthusiast ever treasured in his prophetic soul
