C. Silvestre Horne, 2020-07-27 Reproduction of the original David Livingstone by C Silvestre Horne *Gay Men and the Left*
in Post-war Britain Lucy Robinson, 2013-07-19 Available in paperback for the first time his book demonstrates how the
personal became political in post war Britain and argues that attention to gay activism can help us to fundamentally rethink
the nature of post war politics While the Left were fighting among themselves and the reformists were struggling with the
limits of law reform gay men started organising for themselves first individually within existing organisations and later
rejecting formal political structures altogether Culture performance and identity took over from economics and class struggle
as gay men worked to change the world through the politics of sexuality Throughout the post war years the new cult of the
teenager in the 1950s CND and the counter culture of the 1960s gay liberation feminism the Punk movement and the miners
strike of 1984 all helped to build a politics of identity There is an assumption among many of today s politicians that young
people are apathetic and disengaged This book argues that these politicians are looking in the wrong place People now feel
that they can impact the world through the way in which they live shop have sex and organise their private lives Robinson
shows that gay men and their politics have been central to this change in the post war world *David Livingstone* C.

David Livingstone Charles Silvester Horne,1913 On March 19th 1913 a hundred years will have passed since David Livingstone was born It is only forty years since his body was carried by faithful hands from the centre of Africa to the coast that he might be buried among his peers in Westminster Abbey Nothing that has happened since has diminished by a single laurel the wreath he won and will wear for ever With every decade his fame greatens and whatever our views on African problems might be we may all agree that her white population may well pray for a double portion of his spirit The present biography aspires to present his life to those in our busy century who ask for short measure and a clear simple narrative of facts The author has not aimed so much at telling the story as at allowing the story to tell itself It may be added that in the belief of the writer Livingstone is greatest not as a scientist nor an explorer but as a man and a missionary
