Understanding Asean:

Understanding ASEAN Alison Broinowski, 1982 **Explaining ASEAN** Shaun Narine, 2002 Is ASEAN the foundation of a strong regional community in Southeast Asia Or is it no more than an instrument used by its members to advance their individual interests Addressing these questions Shaun Narine offers a comprehensive political analysis of ASEAN from its creation in 1967 through the events of 2001 Reflecting both the accomplishments and the limitations of the organization Explaining ASEAN explores issues of regional security economic stability and the growing expectations of the international community Narine s trenchant analysis makes it clear that unless ASEAN can resolve the problems of inadequate resources and disagreements among the member states its future as an effective active international regime is doubtful

Understanding ASEAN's Role in Asia-Pacific Order Robert Yates, 2019-03-25 This book assesses the important role of the Association of Southeast Asian Nations ASEAN in the management of regional political security and economic relations The author argues that ASEAN s prominent role in the region spanning 50 years is largely due to the acquiescence of the great powers who endorsed ASEAN accepted its regional position and accorded the institution a legitimacy and durability that otherwise it would not have This text offers a key intervention into the debate regarding ASEAN and regional order by showing how ASEAN s contribution to order management is part of a negotiated division of labour with the great powers The author applies an innovative social roles analysis which captures the dynamic interactions between ASEAN and the great powers from the Cold War to the present day **Understanding ASEAN** , 2018 The Association of Southeast Asian Nations ASEAN was originally formed in 1967 by five members as a means to promote peaceful relations and prevent the spread of communist influence within their sovereign states Since then the regional organization has doubled in size and now includes communist states amongst its membership as it seeks to establish itself as a strong economic and political hub for the greater region as two large military powers China and the United States vie for hegemonic influence The American presence in the region must be governed by a firm understanding of ASEAN s unique nature and goals When compared to other regional organizations that formed over similar time periods such as the European Union ASEAN has not taken a cohesive path with less of a firm timeline for integrating institutions as it instead continues to reshape its policies in small iterative steps to evolve to the changing world If our existing paradigms of the role of regional organizations do not match with the structure of ASEAN we must establish a new toolset in order to guide future policies for involvement in the region This thesis seeks to provide a clear description and thus understanding of the institutions and behavior of ASEAN as a regional organization The questions posed include whether ASEAN conforms to the institutional and behavioral predictions of the major paradigmatic approaches to international theory namely realism liberalism and constructivism The thesis begins with a brief history of ASEAN over four distinct phases and an overview of regional organizations and international theory The three dominant theories are then analyzed in their application to ASEAN in the areas of security economics and human rights Conclusions

are drawn that each of the three theories has its value for descriptive insight but all fall short in creating a holistic understanding of ASEAN Therefore I propose a new way of describing ASEAN as a reactive isomorphic and anti fragile regional organization The potential of this approach is that it utilizes tools latent in the existing theories to examine ASEAN s nature ASEAN's Foreign Relations Ma Irācēntiran,1985 ASEAN's Ways Alice Darlene Ba,2000 Regionalism in Asia See Seng Tan,2009 Especially since the Cold War research relating to international relations in Asia has grown exponentially and to make sense of what is now a vast and unwieldy corpus of literature this collection from the Critical Issues in Modern Politics series brings together the best and most influential work in the field **Understanding the ASEAN: ASEAN, Association of South East Asian Nations** ,2007* *ASEAN's Changing Priorities* David Eric Fass,1990 Understanding ASEAN Through Its Great Leaders ,2017 **Philippine Foreign Policy Toward the U.S. 1972-1980** Virginia S. Capulong-Hallenberg,1987 *The Mirror* ,1988 **Thailand, Foreign Affairs Newsletter** ,1993 International Affairs ,1983 *Regionalism and Multilateralism* Amitav Acharya,2003 These essays written between 1990 and 2000 cover the most significant phase of multilateral institution building in the Asia Pacific region They deal with the emergence of regionalism in Southeast Asia ASEAN s transition to the post Cold War era the role of the ASEAN Regional Forum the engagement of China the changing relationship between sovereignty and regionalism and prospects for the regional institutions such as ASEAN APEC and the ARF after the Asian economic crisis The essays address the most challenging issues of regional order and articulate an institutionalist understanding of international relations in the region This updated second edition includes four new chapters and two revised chapters **Contemporary Southeast Asia** ,2002 **South Asia** Vishnu Prajapati,2003 **A Guide to Sources on Australian-Asian Relations, 1976-1985** Anne Platt,1986 **Encyclopedia of Public International Law** Max-Planck-Institut für Ausländisches Öffentliches Recht und Völkerrecht,1992 Arctic 12 Philip Kunig **The Association of South East Asian Nations' Confidence and Security Building with the People's Republic of China** Kwei-Bo Huang,2000
