Understanding Media Theory:

Understanding Media Theory Kevin Williams, 2003 At last an introduction to media theory which doesn't give you a headache Virtually all students find media theory difficult both to understand and to apply this book is intended to lighten their burden

Understanding Media Theory Arjen Mulder, 2004 Among students at universities and colleges of higher education as well as in the written press one can ascertain a growing interest in media theory There is a conveyor belt of books about new media but what seems to be missing is knowledge and understanding of the classical media theories of Ernst Cassirer Susanne Langer Harold Innis Marshall McLuhan Claude Shannon Gregory Bateson Vilém Flusser Friedrich Kittler and many others In *Understanding Media Theory* the ideas of these theoreticians and philosophers are explained and applied in a clear and accessible way not by discussing the writers one by one but by using real examples and analyzing them on the basis of concepts developed in media theory Consequently this volume is accessible to a broad public though it is primarily intended for students and teachers of media studies The main thrust of media theory is the analysis of how a society is altered by the technical characteristics of the various media it encompasses Media theory therefore examines popular culture as well as the arts journalism as well as philosophy scientific as well as general insights mass media as well as individualized media Media theory claims to offer an explanation for all historic and social phenomena

Understanding Media Marshall McLuhan, 1964 McLuhan believes we are living in the midst of a turbulent unseen revolution where human technologies are becoming extensions of the human organism and the central nervous system His book is a fascinating analysis of all media

Re-Understanding Media Sarah Sharma, Rianka Singh, 2022-03-23 The contributors to *Re-Understanding Media* advance a feminist version of Marshall McLuhan's key text *Understanding Media: The Extensions of Man* repurposing his insight that the medium is the message for feminist ends They argue that while McLuhan's theory provides a falsely universalizing conception of the technological as a structuring form of power feminist critics can take it up to show how technologies alter and determine the social experiences of race gender class and sexuality This volume showcases essays experimental writings and interviews from media studies scholars artists activists and those who work with and create technology Among other topics the contributors extend McLuhan's discussion of transportation technology to the attics and cargo boxes that moved Black women through the Underground Railroad apply McLuhan's concept of media as extensions of humans to analyze Tupperware as media of containment and take up 3D printing as a feminist and decolonial practice The volume demonstrates how power dynamics are built into technological media and how media can be harnessed for radical purposes Contributors Nasma Ahmed Morehshin Allahyari Sarah Banet Weiser Wendy Hui Kyong Chun Brooke Erin Duffy Ganaele Langlois Sara Martel Shannon Mattern Cait McKinney Jeremy Packer Craig Robertson Sarah Sharma Ladan Siad Rianka Singh Nicholas Taylor Armond R Towns and Jennifer Wemigwans
