**Magical Margaret Mahy** Betty Gilderdale, 2013-04-24 Throughout her childhood she was making up stories Before she could write she drew them By the time she was seven she knew she wanted to write books Margaret Mahy was a wizard of words and a spinner of magical stories She was New Zealand's best known author for children wrote more than 200 books and often appeared in a purple wig or a penguin suit while she delighted audiences with vivacious readings of her stories But who was Margaret Mahy What was she like as a child How did she become a writer Where did her weird and wonderful ideas come from Turn these pages and step into a world of the magical Margaret Mahy      **Birthday Burgler** Margaret Mahy, 1989      *How Children Learn to Write* Dorothy Latham, 2002-07-25 This book is a useful addition to any staff library What makes it different to many other similar books is that it shows teachers that speaking listening and reading create the foundations for writing Tested in schools staff said It is a very useful framework for action research based upon secure theory When deciding classroom strategies it is easy to find what you are looking for and the chapter summaries are very helpful Some of the staff development and training suggestions are very practical and we are trying them out We found the emphasis upon class novels and the class discussion that follows very important especially when linked to the excellent examples of children's writing This book may appear to some as theoretical and academic but this is why it will be valuable It does what the title says because it shows how children learn to write It starts at the beginning and saves diving into the latest trend Perhaps its best recommendation is that every school that was asked to look at it said It's good and we have ordered a copy John Lilly independent education consultant The chapter on the Taxonomy of Writing Purposes will be useful for planning and those on extending and enhancing writing will definitely be helpful in many day to day situations Nicholas Bielby Times Educational Supplement This book outlines the processes which are involved when children learn to write The author shows how certain strategies can improve children's progress in writing Dealing with the age range three to 13 the book addresses issues to do with the gender gap children with English as an additional language left handedness Dorothy Latham includes ideas for sound and easy ongoing assessment of writing The book is written in line with the requirements of the English National Curriculum and The National Literacy Strategy Framework for England but is not limited to them Topics also covered include brain development and structures the acquisition of speech language and thinking working memory secretarial skills stages in compositional development writing purposes and cross curricular applications strategies for
