Victorian Murderesses:

Victorian Murderesses Mary S. Hartman,1977 **Victorian Murderesses** Ayşe Naz Bulamur,2016 Victorian Murderesses investigates the politics of female violence in Thomas Hardy TM s Tess of the D TM Urbervilles 1891 George Eliot TM s Adam Bede 1859 Mary Braddon TM s Lady Audley TM s Secret 1862 and Florence Marryat TM s The Blood of the Vampire 1897 The controversial figure of the murderess in these four novels challenges the assumption that women are essentially nurturing and passive and that violence and aggression are exclusively male traits By focusing on the representations of murder committed by women this book demonstrates how legal and even medical discourses endorsed Victorian domestic ideology as female criminals were often locked up in asylums and publicly executed without substantial evidence While paying close attention to the social economic judicial and political dynamics of Victorian England this interdisciplinary study also tackles the question of female agency as the novels simultaneously portray women as perpetrators of murder and excuse their socially unacceptable traits of anger and violence by invoking heredity and madness Although the four novels tend to undercut female power and attribute violence to adulterous women they are revolutionary enough to deploy female characters who rebel against male sovereignty and their domestic roles by stabbing their rapists and even killing their newborns Victorian studies on gender and violence focus primarily on female victims of sexual harassment and real and fictional male killers like Dracula and Jack the Ripper Victorian Murderesses contributes to the field by investigating how literary representations of female violence counter the idealisation of women as angelic housewives

Victorian Murderesses Debbie Blake,2022-12-02 The Victorian belief that women were the weaker sex who were expected to devote themselves entirely to family life made it almost inconceivable that they could ever be capable of committing murder What drove a woman to murder her husband lover or even her own child Were they tragic mad or just plain evil Using various sources including court records newspaper accounts and letters this book explores some of the most notorious murder cases committed by seven women in nineteenth century Britain and America It delves into each of the women s lives the circumstances that led to their crimes their committal and trial and the various reasons why they resorted to murder the fear of destitution led Mary Ann Brough to murder her own children desperation to keep her job drove Sarah Drake to her crime Money was the motive in the case of Mary Ann Cotton who is believed to have poisoned as many as twenty one people Kate Bender lured her unsuspecting victims to their death in The Slaughter Pen before stripping them of their valuables Kate Webster s temper got the better of her when she brutally murdered and decapitated her employer nurse Jane Toppan admitted she derived sexual pleasure from watching her victims die slowly and Lizzie Borden was suspected of murdering her father and stepmother with an axe so that she could live on the affluent area known as the hill in Fall River Massachusetts Victorian Murderesses Mary S. Hartman,1978-02 *A Literature of Their Own* Elaine Showalter,2020-12-08 When first published in 1977 *A Literature of Their Own* quickly set the stage for the creative explosion

of feminist literary studies that transformed the field in the 1980s Launching a major new area for literary investigation the book uncovered the long but neglected tradition of women writers in England A classic of feminist criticism its impact continues to be felt today This revised and expanded edition contains a new introductory chapter surveying the book's reception and a new postscript chapter celebrating the legacy of feminism and feminist criticism in the efflorescence of contemporary British fiction by women

Arsenic Was Her Weapon Brian Jenkins, 2025-08-28 Female poisoners were so prolific in 19th century Britain that their form of homicide became known as a women's crime despite there being no shortage of male poisoners Between the bookending executions of women murderers at the beginning and end of the century a succession of others dispatched multiple victims most frequently by use of arsenic Building on previous studies of such famous figures as Madeleine Smith and Florence Maybrick this book reveals the broader story of women poisoners through the entire century With attention to the influence of social class on their treatment it delves into why so many women turned to homicide in a booming industrialized society traces the changing attitude towards women who committed capital crimes and emphasizes the impact of the press on the enforcement of capital punishment

Matchmaking and the Marriage Market in Postrevolutionary France Andrea Mansker, 2024-12-15 Matchmaking and the Marriage Market in Postrevolutionary France uncovers the unexplored history of matrimonial agents their novel marketing tactics and the rise of personal advertisements to track the commercialization of marriage in nineteenth century France Brokers transformed courtship and marriage into forms of commercial exchange linking them to the burgeoning urban values of abundance pleasure and social mobility By studying agents and readers media fictions on love alongside court cases legislation and literature surrounding the industry Andrea Mansker reveals the intimate and socioeconomic pressures of finding a spouse At the same time she demonstrates how contemporaries used the business of matrimony to reimagine their public identities relationships and courtship rituals following unprecedented historical change due to the French Revolution and Napoleonic wars The matchmaking business both responded to and helped shape national anxieties over fluctuating nuptial rates and changing laws on marriage and divorce As a result marriage itself was reconceived as a commercial contract inseparable from the atomistic and corrupt marketplace The debates and pressures Mansker describes in Matchmaking and the Marriage Market in Postrevolutionary France are still relevant today As contemporary online daters likely understand the possibility of finding a mate in an expanded pool of candidates beyond one's family locality and nation offered individuals the liberating opportunity to explore new personas just as it produced a novel sense of danger about these impersonal transactions in the anonymous marketplace

Victorian Review, 2000

Victorian Murderesses Lacey Belinda Smith, 2012-05-30 Victorian murderesses Edited by Lacey Belinda Smith

Doctoring the Novel Sylvia A. Pamboukian, 2012-03-14 If nineteenth century Britain witnessed the rise of medical professionalism it also witnessed rampant quackery It is tempting to categorize historical practices as either orthodox or quack but what did these terms really signify in medical and public circles at the

time How did they develop and evolve What do they tell us about actual medical practices Doctoring the Novel explores the ways in which language constructs and stabilizes these slippery terms by examining medical quackery and orthodoxy in works such as Mary Shelley's Frankenstein Charles Dickens's Bleak House and Little Dorrit Charlotte Brontë's Villette Wilkie Collins's Armadale and Arthur Conan Doyle's Stark Munro Letters Contextualized in both medical and popular publishing literary analysis reveals that even supposedly medico-scientific concepts such as orthodoxy and quackery evolve not in elite laboratories and bourgeois medical societies but in the rough and tumble of the public sphere a view that acknowledges the considerable and often underrated influence of language on medical practices **Victorian Literature and Society**

Richard Daniel Altick, 1984 Homicide, a Bibliography of Over 4,500 Items Bal K. Jerath, Paul E. Larson, Jesse F.

Lewis, 1982 **Seven Days**, 1975 Victorian Newsletter, 1974 German Women in the Nineteenth Century John C.

Fout, 1984 This book is divided into two parts The first focuses on middle and upper class German women and the second on working class women The book addresses a range of important topics including growing up female in 19th century Germany the impact of agrarian change on women's work and child care female political opposition in pre-1849 Germany women's role in working class families in the 1890s women's education and reading habits and Jewish women and assimilation

Nineteenth-century Studies, 1997 *The Detective as Historian* Ray B. Browne, Lawrence A. Kreiser, 2000-06-15 People of the past appear with all their pretenses down and their acts of violence laid bare BOOK JACKET *The Secret Museum*

Walter M. Kendrick, 1988 Walter Kendrick traces the relatively recent concept of pornography the word was not coined until the late 18th century which became a public issue once the printing press gave ordinary people access to the erotica of the Greeks and Romans the art and literature of the French enlightenment and the poems of the Earl of Rochester and John Cleland's Fanny Hill From the secret museums to the pornography trials of Madame Bovary and Lady Chatterley's Lover to Mapplethorpe cable TV and the Internet Kendrick explores how conceptions of pornography relate to issues of freedom of expression and censorship *Venomous Woman* Margaret Hallissy, 1987-11-11 This work demonstrates the ways in which a

complex of ideas with a misogynistic basis relates to the image of the venomous woman the woman who uses poisons or potions who has a relationship with a venomous animal or who is herself poisonous Hallissy suggests that the venomous woman is an image of feminine power reflected in masculine fear The study concentrates on periods when ignorance of the medicinal effects of poisons exaggerated the potency of this image It examines works of literature which span a large period of time but are linked by this persistent image Through its examination of the venomous women it clarifies the function of misogyny as an expression of masculine fear *France* Frances Chambers, 1990
