Weep With One Eye:

The Prayers and Tears of Jacques Derrida John D. Caputo, 1997-09-22 The Prayer and Tears of Jacques Derrida takes its point of departure from Derrida's more recent sometimes autobiographical writings and closely examines the religious motifs that have emerged in his later works. John D. Caputo's provocative interpretation of Derrida's thinking also makes an original contribution to the question of the relevance of deconstruction for religion. Caputo's Derrida is a man of faith who bridges Jewish and Christian traditions. The deep messianic, apocalyptic, and prophetic tones in Derrida's writings, Caputo argues, bespeak his broken covenant with Judaism. Through its startling exploration of Derrida's impossible religion, the book sheds light on the implications of deconstruction for an understanding of religion and faith today. (from back cover)

Textbook of ophthalmology in the form of clinical lectures. v.2, 1912 Paul Romer, 1912 Chambers's Twentieth Century Dictionary (Complete) Various Authors. This is the third English Dictionary which the present Editor has prepared and he may therefore lay claim to an unusually prolonged apprenticeship to his trade. It is surely unnecessary for him to say that he believes this to be the best book of the three and he can afford to rest content if the Courteous Reader receive it with the indulgence extended to his Library Dictionary published in the spring of 1898. It is based upon that work but will be found to possess many serviceable qualities of its own. It is not much less in content and its greater relative portability is due to smaller type, to thinner paper, and still more to a rigorous compression and condensation in the definitions, by means of which room has been found for many additional words. The aim has been to include all the common words in literary and conversational English, together with words obsolete save in the pages of Spenser, Shakespeare, Milton, and the Authorised Version of the Bible. An attempt has been made also to include the common terms of the sciences and the arts of life, the vocabulary of sport, those Scotch and provincial words which assert themselves in Burns, Scott, the Brontës, and George Eliot, and even the coinages of word-masters like Carlyle, Browning, and Meredith. Numberless compound idiomatic phrases have also been given a place in each case under the head of the significant word. Correctness in technical matters has been ensured by consulting such books as Smyth's Sailor's Word Book, Voyle's Military Dictionary, Wilson's Stock Exchange Glossary, Lee's Glossary of Liturgical and Ecclesiastical Terms in Greek, Liddell and Scott in Romance Philology, Diez and Scheler in French, Littré in Spanish, Velázquez in German, Weigand and Flögel in Gaelic, Macleod and Dewar, and M.
