## **Weimar Germany:**

*Weimar Germany* Eric D. Weitz, 2018-09-25 The definitive history of Weimar politics culture and society A New York Times Book Review Editor's Choice A Financial Times Best Book of the Year Thoroughly up to date skillfully written and strikingly illustrated Weimar Germany brings to life an era of unmatched creativity in the twentieth century one whose influence and inspiration still resonate today Eric Weitz has written the authoritative history that this fascinating and complex period deserves and he illuminates the uniquely progressive achievements and even greater promise of the Weimar Republic Weitz reveals how Germans rose from the turbulence and defeat of World War I and revolution to forge democratic institutions and make Berlin a world capital of avant garde art He explores the period's groundbreaking cultural creativity from architecture and theater to the new field of sexology and presents richly detailed portraits of some of the Weimar's greatest figures Weimar Germany also shows that beneath this glossy veneer lay political turmoil that ultimately led to the demise of the republic and the rise of the radical Right Yet for decades after the Weimar period continued to powerfully influence contemporary art urban design and intellectual life from Tokyo to Ankara and Brasilia to New York Featuring a new preface this comprehensive and compelling book demonstrates why Weimar is an example of all that is liberating and all that can go wrong in a democracy

Weimar Germany Paul Bookbinder, 1996 The Weimar period in German history which extended from 1919 to 1933 was a time of political violence economic crisis generational and gender tension and cultural experiment and change Despite these major issues the Republic is often treated only as a preface to the study of the rise of Fascism in Germany and this book seeks to correct the balance exploring Weimar for what it was as well as where it led

Weimar Germany and the Third Reich J. F. Corkery, 1981 Germany, 1919-39 John Kerr, 2003 Designed to cover the most up to date Standard Grade requirements these books should provide everything you need to prepare your students for their exams There are exam style questions and full colour presentation throughout *The Heroic Earth* David Thomas Murphy, 1997 In *The Heroic Earth* David T Murphy argues that geopolitical ideas were most dynamic and significant in Germany not during the Nazi era 1933-45 but in the democratic culture of the Weimar republic 1919-33 By helping to condition the German population to geopolitical ideas which emphasized revision of the Versailles settlement and enlarging Germany's living space geopolitics helped contribute to Nazi imperialism From the defeat of Germany in 1918 until the rise of National Socialism in 1933 theories of geographical determinism enjoyed a broad currency in many fields of German public life The ancient notion that environmental factors climate topography resource distribution shape society in significant ways was now applied in a radically determinist fashion to help Germans understand why they had lost the war and what they had to do to regain their place among the Great Powers Under the rubric of Geopolitik politicians teachers writers and others argued that the key to Germany's past and the hope for its future lay in understanding geography's determining impact upon races cultures states and warfare Theories of geographical determinism shaped German thinking about politics

race science education aesthetics and many other subjects on the eve of the Nazi era Challenging traditional historiography Murphy argues that geopolitics faded in importance after Adolf Hitler came to power **Weimar and Nazi Germany** Panikos Panayi,2014-09-25 Weimar and Nazi Germany presents the history of the country in these periods in a unique way Examining the continuities and discontinuities between the Third Reich and the Weimar Republic it also contextualises these two regimes within modern German and European history After a broad introduction to 1919 1945 four general surveys examine the economy society internal politics and foreign policy A third section treats specific key themes including women and the family big business race the SPD the extreme Right and Anglo German relations This innovative text assembles major scholars of Germany It will prove vital reading for all those interested in twentieth century history Hitler and the Collapse of Weimar Germany Martin Broszat,1987-02-25 From the decline of the Weimar government through the ascension of the Third Reich in January 1933 a preeminent German historian takes a compelling look at the period after World War I and just prior to Hitler s Chancellorship drawing on journals newspaper accounts and Hitler s public statements Broszat places in rare perspective Hitler s early activities and the strategic process by which the Nazi Party took control Germany, 1914-1933 Matthew Stibbe,2013-12-19 Germany 1914 1933 Politics Society and Culture takes a fresh and critical look at a crucial period in German history Rather than starting with the traditional date of 1918 the book begins with the outbreak of the First World War in 1914 and argues that this was a pivotal turning point in shaping the future successes and failures of the Weimar Republic Combining traditional political narrative with new insights provided by social and cultural history the book reconsiders such key questions as How widespread was support for the war in Germany between 1914 and 1918 How was the war viewed both from above by leading generals admirals and statesmen and from below by ordinary soldiers and civilians What were the chief political social economic and cultural consequences of the war In particular did it result in a brutalisation of German society after 1918 How modern were German attitudes towards work family sex and leisure during the 1920s What accounts for the extraordinary richness and experimentalism of this period The book also provides a thorough and comprehensive discussion of the difficulties faced by the Weimar Republic in capturing the hearts and minds of the German people in the 1920s and of the causes of its final demise in the early 1930s *A Brief History of the Weimar Republic and Nazi Germany Before World War II* Percy Bennington,2018-01-18 The Weimar Republic has become a byword for a failed tragic political experiment The official period of its existence 1919 1933 marked the inter war years in Germany and their related uncertainty chaos and the state s ultimate collapse Historians have found the roots of Nazism embedded in the Weimar years and that in the final analysis Weimar politicians voluntarily handed over power to the man who wrought destruction on an epic scale Adolf Hitler Yet the Weimar era encapsulated a number of trends and fissures within German society as well as the international community The Weimar Republic was a prisoner of events and in the long run had little power to shape them Historians are fond of interpreting the past as a tension between human agency that is to say decision

making and structural developments that evade individual choices Both these interpretations are crucial when examining the tumultuous years of Germany's Weimar Republic German governments had teetered on the edge of collapse throughout the Weimar years as politicians of all stripes had struggled to stabilise the economy and the wider societal problems In the 14 years between 1919 and 1933 a total of 20 separate coalition governments had been formed The most stable period after the hyperinflation of 1923 and before the Wall Street Crash of 1929 was only calm in a relative sense It is therefore perhaps unsurprising that the Weimar state was so easily dismantled by Hitler's National Socialists What is more shocking however is the speed in which the Nazis turned a fragile democracy into one of history's most draconian dictatorships The Nazis demonstrated both brute force and political guile as well as highly effective propaganda in achieving their aims There are many contradictions surrounding the transition from Weimar to Nazi Germany The country had been home to some of the key figures of the Enlightenment Period in arts philosophy music and literature Yet this beacon of civilisation descended into an abyss of barbarism and intolerance A region that for so long resisted incorporation into one state became intensely nationalistic A country that provided refuge to Jewish people for hundreds of years turned on them to prosecute anti-Semitism's lowest point the Holocaust A state Weimar that had been designed with liberal and progressive ideals dissolved into illiberalism and reactionary authoritarianism The alignment of Nazism and Germany is obvious to the 21st century reader but as it unfolded the chain of events took the world by surprise This period of history fueled by Hitler and his fanatical politics led the world to the bloodiest moment of an ultra violent century In January 1933 when Hitler became German Chancellor all this was in the albeit near future How the Nazis accumulated power is a true warning from history

A Brief History of the Weimar Republic and Nazi Germany Before World War II provides a quick but comprehensive look at the Weimar Republic and Nazi Germany before the war [The Weimar Republic](#) Stephen J. Lee, 1998-04-30 Integrating historical narrative questions analysis and evaluation of primary sources this book provides students with a clear background to Germany in the aftermath of the First World War and also includes a guide to exam success *Hitler and Nazi Germany* Jackson J. Spielvogel, David Redles, 2020-05-05 Hitler and Nazi Germany A History is a brief but comprehensive survey of the Third Reich based on current research findings that provides a balanced approach to the study of Hitler's role in the history of the Third Reich The book considers the economic social and political forces that made possible the rise and development of Nazism the institutional cultural and social life of the Third Reich World War II and the Holocaust World War II and the Holocaust are presented as logical outcomes of the ideology of Hitler and the Nazi movement This new edition contains more information on the Kaiserreich Imperial Germany as well as Nazi complicity in the Reichstag Fire and increased discussion of consent and dissent during the Nazi attempt to create the ideal Volksgemeinschaft people's community It takes a greater focus on the experiences of ordinary bystanders perpetrators and victims throughout the text includes more discussion of race and space and the final chapter has been completely revised Fully updated the book ensures that students gain a

complete and thorough picture of the period and issues Supported by maps images and thoroughly updated bibliographies that offer further reading suggestions for students to take their study further the book offers the perfect overview of Hitler and the Third Reich

**The Longman Companion to Nazi Germany** Tim Kirk,2014-06-11 Here is a wealth of factual and interpretative information about Germany between 1918 and 1945 Designed for maximum practicality it sets the Hitler years in their wider context with most sections spanning the Weimar Republic and the rise of Nazism as well as the Third Reich itself In addition to political chronologies and anatomies of the Nazi party and the police state there is detailed information on economy society and culture diplomacy rearmament and war and racial politics and the Holocaust Biographies glossary and a rich annotated bibliography complete an invaluable study aid

**Women and Modernity in Weimar Germany** Vibeke Rützou Petersen,2001-06 This book focuses on the popular fiction of Weimar Germany and explores the relationship between women the texts they read and the society in which they lived A complex picture emerges that shows women talking center stage not only in the fiction but also in the reality that shaped its fictional representations One of the author's significant conclusions is that it was the growing strength of female subjectivity its strong positioning and its insistent claim to visibility that occupied the imaginations and fears of Weimar culture and contributed in an important way to the crisis that afflicted the Weimar Republic

The Boycott or the Bullet Doug McGetchin,2026-03-25 The Boycott or the Bullet A Global History of Debates over Nonviolence since 1850 examines debates within nonviolent movements including labor movements in Europe Gandhi's Indian independence struggle and Martin Luther King's US civil rights campaigns Behind the scenes nonviolent activists pressured those on their own side to maintain discipline and not to escalate to violence Resolving these internal tensions is part of a wider worldwide dynamic debate between proponents of nonviolent direct action and those of violent revolt This account reveals how nonviolent proponents have successfully managed to curtail advocates of violence pursuing boycotts instead of bullets

**Weimar Germany** Anthony McElligott,2009-03-19 The Weimar Republic was born out of Germany's defeat in the First World War and ended with the coming to power of Hitler and his Nazi Party in 1933 In many ways it is a wonder that Weimar lasted as long as it did Besieged from the outset by hostile forces the young republic was threatened by revolution from the left and coups d'états from the right Plagued early on by a wave of high profile political assassinations and a period of devastating hyper inflation its later years were dominated by the onset of the Great Depression And yet for a period from the mid 1920s it looked as if the Weimar system would not only survive but even flourish with the return of economic stability and the gradual reintegration of the country into the international community With contributions from an international team of ten experts this volume in the Short Oxford History of Germany series offers an ideal introduction to Weimar Germany challenging the reader to rethink preconceived ideas of the republic and throwing new light on important areas such as military ideas for reshaping society after the First World War constitutional and social reform Jewish life gender and culture
