looks forward to the poetry and readings that the new century will bring The Companion embraces the extraordinary development of poetry over the century in twenty English speaking countries a century which began with a bipolar transatlantic connection in modernism and ended with the decentred heterogeneity of post colonialism Representation of the canonical and the marginal is therefore balanced including the full integration of women poets and feminist approaches and the in depth treatment of post colonial poets from various national traditions Discussion of context intertextualities and formal approaches illustrates the increasing self consciousness and self reflexivity of the period whilst a Readings section offers new readings of key selected texts The volume as a whole offers critical and contextual coverage of the full range of English language poetry in the last century

Poetry 1900-2000 Meic Stephens,2007 Poetry 1900 2000 brings together a vibrant expression of the industrial pastoral rural urban religious political and linguistic experience of Wales in the twentieth century world The poetry collected here is as varied as Wales itself and ranges from the well known to the startling from the lyrical to the experimental the celebration of tradition to that of protest Each poet s biography situates the writer in a social and literary context and the collection presents an unparalleled panorama of the development of Welsh poetry in English in the twentieth century Book Jacket
