**The Mescalero Project** Doug Buchs,2005 The world outside defined their brutality Their world inside consummated their humanity In 2021 intense solar flares called Solares trigger a series of events that have a profound effect on two hundred killers in a secret experimental prison hidden in the desert The inmates are abandoned and the project is forgotten for fifty years until ambitious graduate student Jake Moss discovers blueprints in the national archives and uncovers the complex Evidence of fraud sabotage and murder surround its existence and Moss is determined to ferret out the full story One surviving inmate Vincent Briscoe fills in many of the missing pieces detailing the journals of James Stryker charismatic leader of the inmates The story of how and why these men survived unfolds and becomes the phenomenon that was The Mescalero Project *Environmental Justice* Kristin Shrader-Frechette,2002-09-26 Shrader Frechette offers a rigorous philosophical discussion of environmental justice Explaining fundamental ethical concepts such as equality property rights procedural justice free informed consent intergenerational equity and just compensation and then bringing them to bear on real world social issues she shows how many of these core concepts have been compromised for a large segment of the global population among them Appalachians African Americans workers in hazardous jobs and indigenous people in developing nations She argues that burdens like pollution and resource depletion need to be apportioned more equally and that there are compelling ethical grounds for remedying our environmental problems She also argues that those affected by environmental problems must be included in the process of remedying those problems that all citizens have a duty to engage in activism on behalf of Environmental Justice and that in a democracy it is the people not the government that are ultimately responsible for fair use of the environment *Decisions and Orders of the National Labor Relations Board* United States.
