American Opera Singers and Their Recordings Clyde T. McCants,2004-08-06 This book focuses on American opera singers and what their recordings say about their artistry It is not a book about all American opera singers since many who had important careers on stage made few if any recordings And many of those who did make recordings did so prior to the introduction of electrical recording in 1925 and the resulting advances in the reproduction of the human voice Opera enthusiasts can only imagine the sound of Farinelli s voice or read what his contemporaries have written about it but with almost any famous or near famous singer of recent years enthusiasts do not have to imagine Their voices are available through the technology of sound recording There are 53 entries one each for 52 singers and a composite entry for a group of Hollywood vocalists Each entry contains biographical information and is followed by a discography of operatic recordings to be used in conjunction with the critical commentaries The entries are in alphabetical order by the singer s last name and provide critical analyses of key recordings and of the artists gifts and limitations The Oxford Handbook of the New Cultural History of Music Jane F. Fulcher,2013-11-01 As the field of Cultural History grows in prominence in the academic world an understanding of the history of culture has become vital to scholars across disciplines The Oxford Handbook of the New Cultural History of Music cultivates a return to the fundamental premises of cultural history in the cutting edge work of musicologists concerned with cultural history and historians who deal with music In this volume noted academics from both of these disciplines illustrate the continuing endeavor of cultural history to grasp the realms of human experience

understanding and communication as they are manifest or expressed symbolically through various layers of culture and in many forms of art The Oxford Handbook of the New Cultural History of Music fosters and reflects a sustained dialogue about their shared goals and techniques rejuvenating their work with new insights into the field itself
