Soviet Interests in the Third World Robert Cassen, 1985 Soviet policy towards Africa Asia the Middle East and Latin America is a key factor in the relationship between the superpowers and in international affairs generally This book which is the result of a study group convened at the Royal Institute of International Affairs describes the political economic and strategic nature of Soviet interests and analyses their implications The authors examine Soviet links with the Third World through arms sales and trade They assess the impact that Sino Soviet tension has had on relations with the Third World and consider the Soviet Union s view of the North South dialogue They also study how the Soviet leadership has had to adopt specific policies to suit conditions in different countries and how it has handled internal underdevelopment in Soviet Central Asia The picture of Soviet policy that emerges is not one of thrusting and successful pursuit of world domination but one of caution and cost consciousness

III highlights the international circumstances and Soviet military political realities providing incentives for the new approach and analyzes its doctrinal ideological framework The specific methods and instrumentalities military political and economic of Soviet penetration of the Third World under the new strategy are addressed in Section IV The main conclusions are presented in Section V Author *Soviet Policy and United States Response in the Third World* Library of Congress.

Congressional Research Service,1981 **Gorbachev's Economic Strategy in the Third World** Giovanni Graziani,1990-02-15 Giovanni Graziani examines Gorbachev s reforms in terms of economic relations with the Third World and presents a detailed and sophisticated statistical analysis of Soviet economic assistance and trade This book critically evaluates all the statistical data from Soviet and United Nations sources and presents the changing Soviet attitude toward indebtedness and the growing dissatisfaction expressed by both the Third World and the U S S R over the management of Soviet aid The author notes a contradiction between Gorbachev s strategy and statistical evidence for the first years of his office but stresses that the recent moves to trade with South Korea and other Asian countries are bound to affect the Soviet geographical pattern of trade His estimates show the increasing importance of agricultural products and fuels in Soviet imports and of military equipment and fuels in its exports Particularly interesting is what Graziani calls the oil imbroglio a triangular trade pattern in which the U S S R has increased its imports of crude oil from the Third World for reexport to the West in order to stabilize its export earnings in hard currencies threatened by falling oil prices The book concludes that no expansion of Soviet economic ties with the Third World is foreseen in the short run and that eventual Soviet participation in international economic organizations might further entail new conflicts with the Third World *USSR and Third World*

,1988 **Limits to Soviet Power** Rajan Menon,Daniel N. Nelson,1989 The purpose of this book is not to assert that there are limits to Soviet power but through an examination of selected aspects of Soviet foreign and domestic policy to understand what limits there are and to assess their significance and severity The authors have assumed that the vast size of the Soviets nuclear arsenal and considerable energy reserves and that their vigorous and communicative new leader Mikhail Gorbachev their record of forceful interventions in Eastern Europe Afghanistan and Africa and other indicators of ability to exert influence and control in world affairs were recognizable to most Americans **Soviet Policies Toward the Developing**
