McGuire, 1985 New Soviet Science Fiction, 1980 **Soviet Science Fiction Cinema and the Space Age** Natalija Majsova, 2021-04-28 This book interrogates the relations between nostalgias of today and past utopias in the context of the space age of the 20th century and its cinematic representations in the USSR and in post Soviet Russia Once an enthusiastic projection then a promising and uncanny present and eventually an assemblage of nostalgic signifiers in the history of world cinema this space age has been linked primarily to the genre of science fiction Here aspects of the space age such as humanity's imminent expansion to space interplanetary travel contact with extraterrestrial intelligence and intergalactic governance and economy were both celebrated and critically interrogated as cosmopolitan ideals and nation branding strategies This book presents the contemporary relevance of this genre as heritage and legacy archive and canon and a nest of forgotten ideals and warnings as well as nostalgic anchoring points The author analyzes over 30 Soviet science fiction films foregrounding their structures of utopia and their evolution over time in order to trace both their transnational positionalities transmedial resonance and impact on post Soviet Russian films about the space age Concepts crucial to the understanding of space futures of the past such as utopianism otherness liminality and nostalgia are activated to draw out the fictional tenants of the memory of the Soviet space age and to establish the limits and potentialities of Soviet extra terraformative ambitions **Vortex** C. G. Bearne, 1971 **Soviet science fiction** Violet L. Dutt, 1971 *Soviet Science Fiction* Isaac Asimov, 1962 *Red Star Tales* Yvonne Howell, Anne O. Fisher, 2015 For over a century most of the science fiction produced by the world's largest country has been beyond the reach of Western readers This new collection aims to change that bringing a large body of influential works into the English orbit A scientist keeps a severed head alive and the head lives to tell the tale An explorer experiences life on the moon in a story written six decades before the first moon landing Electrical appliances respond to human anxieties and threaten to crash the electrical grid Archaeologists discover strange powers emanating from a Central Asian excavation site A teleporting experiment goes awry leaving a subject to cope with a bizarre sensory swap A boy discovers the explosive truth of his father's antiseptic work stamping out dissent on distant worlds The last 100 years in Russia have seen an astonishing diversity and depth of literary works in the science fiction genre by authors with a dizzying array of styles and subject matter This volume brings together 18 such works translated into English for the first time spanning from path breaking pre revolutionary works of the 1890s through the difficult Stalinist era to post Soviet stories published in the 1980s and 1990s

The Cold War in Science Fiction: Soviet and American Science Fiction Films in the 1950s Natalia Voinova, 2013-05-23 This study will compare the USSR and the United States according to their cinematic use of science fiction in the late 1950s and 1960s in order to coincide with the period of de Stalinisation and thaw in the USSR and late McCarthyism in the United

States The genre provides an opportunity to express the two powers scientific stand off through fiction and serves as a vehicle for the dissemination of ideas and propaganda Post 1956 marks the time when the period of de Stalinisation officially began and science fiction saw a carefully crafted rebirth for it served as a tool that could reflect the socialist ideal and quasi religious faith in science that was promoted by the party Science fiction uniquely demands for an imaginative view of the future and therefore corresponds with the Marxist Leninist future oriented ideology For this period the themes for American science fiction are hyperbolised monsters and invasion and reflect the fear of the otherness of the Soviet Union and its threat on domestic ideals These themes are reflected in movies as *Angry Red Planet* and *Them* On the other hand Soviet science fiction movies focus on the heroic Soviet man who frequently receives calls for help from outer space and overcomes great trials to save those not living in utopia This storyline is represented in *Towards a Dream* and *The Sky is calling* The author gives special attention to the Soviet movie *The Sky is calling* and the subsequent redubbed American version *Battle beyond the Sun* Further she addresses alterations or plot and subtle propaganda messages in the Soviet movies *Planet of Storms* and the Hollywood remake *Journey to the Prehistoric Planet*
