**Literature of Suburban Change** Dines Martin Dines, 2020-03-02 Explores how American writers articulate the complexity of twentieth century suburbia Examines the ways American writers from the 1960s to the present including John Updike Richard Ford Gloria Naylor Jeffrey Eugenides D J Waldie Alison Bechdel Chris Ware Jhumpa Lahiri Junot Diaz and John Barth have sought to articulate the complexity of the US suburbs Analyses the relationships between literary form and the spatial and temporal dimensions of the environment Scrutinises increasingly prominent literary and cultural forms including novel sequences memoir drama graphic novels and short story cycles Combines insights drawn from recent historiography of the US suburbs and cultural geography with analyses of over twenty five texts to provide a fresh outlook on the literary history of American suburbia The Literature of Suburban Change examines the diverse body of cultural material produced since 1960 responding to the defining habitat of twentieth century USA the suburbs Martin Dines analyses how writers have innovated across a range of forms and genres including novel sequences memoirs plays comics and short story cycles in order to make sense of the complexity of suburbia Drawing on insights from recent historiography and cultural geography Dines offers a new perspective on the literary history of the US suburbs He argues that by giving time back to these apparently timeless places writers help reactivate the suburbs presenting them not as fixed finished and familiar but rather as living multifaceted environments that are still in production and under exploration

### **The Stepford Wives**

Samantha Lindop, 2022-01-15 The Stepford Wives 1975 occupies an unusual position in cinematic history As is often the case with cult texts the film was both a box office flop and widely misunderstood on release Intended as a feminist diatribe it was derided by Betty Friedan whose 1963 book The Feminine Mystique it literalised Even Ira Levin author of the novel from which the film was adapted concedes he was less than enthused with the filmed version Despite this the term Stepford wife has become idiolect for a particular kind of one dimensional upper middle class woman who is figuratively and to some extent literally an automation Indeed one does not need to have seen or even heard of the film or Levin s book to be familiar with the concept This timely study finally gives The Stepford Wives the serious scholarly attention it deserves In doing so the significance of the film as a socio cultural and socio political document in its own right is underscored While the intention of this book is to pay homage to Bryan Forbes film it goes far beyond this locating it in the traditions of the gothic the histories of feminism and fictional imaginings about artificial women and the futures of social robots and AI both real and imagined

**Between Dream Houses and "God's Own Junkyard": Architecture and the Built Environment in American Suburban Fiction** Stefanie Strebel, 2021-06-28 The American suburb is a space dominated by architectural mass production sprawl as well as a monotonous aesthetic eclecticism and many critics argue that it has developed from a postwar utopia into a disorienting environment with which it is difficult to identify The typical suburb has come to display characteristics of an atopia that is a space without borders or even a non place a generic space of transience Dealing with the representation of

architecture and the built environment in suburban literature and film from the 1920s until present this study demonstrates that in its fictional representations too suburbia has largely turned into a place of non architecture A lack of architectural ethos and an abundance of Junkspace define suburban narratives causing an increasing sense of disorientation and entropy in fictional characters

Wetmore, Jr.,2018-04-12 The Duffer Brothers award winning Stranger Things exploded onto the pop culture scene in 2016 The Netflix original series revels in a nostalgic view of 1980s America while darkly portraying the cynical aspects of the period This collection of 23 new essays explores how the show reduces reuses and recycles 80s pop culture from the films of Spielberg Carpenter and Hughes to punk and synthwave music to Dungeons the politics psychology and educational policies of the day and how the ultimate upper class teen idol of the Reagan era became Stranger Things middle aged blue collar heroine
