Poetics of Friendship in Early Modern Spain Gilbert-Santamaria Donald Gilbert-Santamaria,2020-09-21 Friendship as a poetic principle in early modern Spanish literary works Donald Gilbert Santamara shows how the Aristotelian Ciceronian notion of perfect male friendship operates as an independent poetic force within the development of Spanish literature in the sixteenth and early seventeenth centuries He traces the trajectory for such a poetics through key prose and theatrical works culminating in an analysis of Don Quixote where friendship emerges as an important formal influence in Cervantes s novel With chapters covering several important genres from the period including the pastoral novel and the comedia the book explores the relationship between friendship and other key problems associated with literary representation in the period subjectivity exemplarity and imitatio among others

Contemplating Friendship in Aristotle's Ethics Ann Ward,2016-09-30 In this book Ann Ward explores Aristotle s Nicomachean Ethics focusing on the progressive structure of the argument Aristotle begins by giving an account of moral virtue from the perspective of the moral agent only to find that the account itself highlights fundamental tensions within the virtues that push the moral agent into the realm of intellectual virtue However the existence of an intellectual realm separate from the moral realm can lead to lack of self restraint Aristotle Ward argues locates political philosophy and the experience of friendship as possible solutions to the problem of lack of self restraint since political philosophy thinks about the human things in a universal way and friendship grounds the pursuit of the good which is happiness understood as contemplation Ward concludes that Aristotle s philosophy of friendship points to the embodied intellect of timocratic friends and mothers in their activity of mothering as engaging in the highest form of contemplation and thus living the happiest life
