*Research Handbook on the Metaverse and Law* Larry A. DiMatteo, Michel Cannarsa, 2024-08-06 This Research Handbook analyses the role of law in a universe fractured by new disruptive technologies such as metaverse platforms Contributing authors explore how the law will adapt as new dimensions of the metaverse are introduced to issues such as intellectual property rights e commerce NFTs and cryptocurrencies data privacy contract law as well as human rights consumer law and criminal law The abuse and manipulation of users is studied in several contributions

The Age of Decentralization Sam Ghosh, Subhasis Gorai, 2024-10-15 The Age of Decentralization talks about various decentralization technologies including Web3 decentralized identity and decentralized storage and how they can be incorporated in traditional tech architectures to improve technical and business performance In this book the authors take us on a journey through the tech landscape exploring how decentralized technologies including Web3 are on the verge of becoming mainstream and offer a practical roadmap for understanding and embracing this shift Web2 brought us the great centralization by centralizing not only data but also business processes blurring the industry boundaries So

payment platforms started offering e-commerce services and ride-hailing services started delivering food. Scale became the most effective moat. But at the same time, these huge platforms became a magnet for security threats and started violating user privacy rights and consumer rights. The authors argue that the technological, regulatory, and social landscape is ready for the next evolution of technology systems as decentralization technologies get incorporated into traditional architectures. This book serves as a guide for readers to understand the fundamentals of Web3 along with other decentralized technologies and creates a framework for incorporating them into traditional architectures. At the same time, the authors explore the organization level as well as the macro implications of decentralized technologies.

**The Routledge Handbook of Translation and Young Audiences** Michał Borodo, Jorge Díaz-Cintas, 2025-01-31. The Routledge Handbook of Translation and Young Audiences offers a comprehensive overview of translation in the context of young audiences. The handbook synthesises research on translation of children's and young adult literature, audiovisual translation, the translation of comics and picture books, empirical research methods, and translation performed by fan communities in the digital world. Adopting a forward-looking approach, it is organised around these five key themes which taken together propose a new way of looking at interrelated phenomena which have never been brought together before to map this emerging area of study. Featuring 35 contributions from leading and emerging scholars, the volume showcases a range of perspectives which focus on translation and cultural practices around children and young adults, not only as readers, viewers, and consumers, but also as prosumers and collaborative creators of content. Providing a multi-layered perspective on the study of translation and young audiences, this handbook will be a valuable resource for students and scholars in translation studies, particularly those interested in audiovisual translation, media translation, multimodal texts, and children's literature.
