To Touch The Past

John Stephen Farmer

To Touch The Past:

The Touch of the Past R. Simon, 2016-04-30 In Roger Simon's new collection based on ten years of research the respected scholar reminds us that historically traumatic events simultaneously summon forgetting and remembrance in unique ways. The Touch of the Past explores the ways in which remembrance, consciousness, and history affect how students learn and educators teach. Simon examines how testimonies of historic events influence learning and how communities deal with collective memory. A serious contribution to the research in education and memory and trauma studies from a top philosopher in the field.

Slang and Its Analogues Past and Present: Stra to Z John Stephen Farmer, 1904 [Sensing the Past](#) Mark Michael Smith, 2007 Smith's history of the sensate is destined to precipitate a revolution in our understanding of the sensibilities that underpinned the mentalities of past epochs. David Howes, author of *Sensual Relations: Engaging the Senses in Culture and Social Theory*. Mark M. Smith presents a far-ranging essay on the history of the senses that serves simultaneously as a good introduction to the historiography. If one feels in danger of sensory overload from this growing body of scholarship, Smith's piece is a useful preventive.

Leigh E. Schmidt, author of *Restless Souls: The Making of American Spirituality*. This is a masterful overview. The history of the senses has been a frontier field for a while now. Mark Smith draws together what we know with an impressive sensory range and encourages further work. A really exciting survey.

Peter N. Stearns, author of *American Fear: The Causes and Consequences of High Anxiety*. Who would ever have guessed that a book on the history of the senses—seeing, hearing, touching, tasting, and smelling—could be informative, thought-provoking, and at the same time most entertaining. Ranging in both time and locale, Mark Smith's *Sensing the Past* makes even the philosophy about the senses from ancient times to now both learned and exciting. This work will draw scholars into under-recognized subjects and lay readers into a world we simply but unwisely take for granted.

Bertram Wyatt Brown, author of *Southern Honor: Ethics and Behavior in the Old South*. Mark M. Smith has a good record of communicating his research to a broad constituency within and beyond the academy. This will be required reading for anyone addressing sensory history.

Penelope Gouk, author of *Music, Science, and Natural Magic in Seventeenth-Century England*. This is a fine cultural history of the body which takes Western and Eastern traditions and their texts quite seriously. Smith views a history of the senses not only from below but places it squarely in the historical imagination. It will be of interest to a wide range of readers.

Sander L. Gilman, author of *Difference and Pathology*. [Reading the American Past: Volume I: To 1877](#) Michael P. Johnson, 2012-01-05. With five carefully selected documents per chapter, this two-volume primary source reader presents a wide range of documents representing political, social, and cultural history in a manageable, accessible way. Thirty-two new documents infuse the collection with the voices of an even wider range of historical actors. Expertly edited by Michael P. Johnson, one of the authors of *The American Promise*, the readings can be used to spark discussion in any classroom and fit into any syllabus. Headnotes and discussion questions help students approach the documents, and comparative questions encourage students to make

Dairymens Association,1894 [Telling Children About the Past](#) Nena Galanidou,Liv Helga Dommasnes,2007-12-01 This book brings together archeologists historians psychologists and educators from different countries and academic traditions to address the many ways that we tell children about the distant past Knowing the past is fundamentally important for human societies as well as for individual development The authors expose many unquestioned assumptions and preformed images in narratives of the past that are routinely presented to children The contributors both examine the ways in which children come to grips with the past and critically assess the many ways in which contemporary societies and an increasing number of commercial agents construct and use the past *The Works of Thomas Carlyle: Past and present* ,1897 [The Perkiomen Region, Past and Present](#) Henry Sassaman Dotterer,1895 [The Christs of the Past and Present](#) Moses Hull,1901 [Past Memories and Future Thoughts](#) Elkanah J.
