Efficient Decision Support Systems Chiang Jao, 2011-09-06
This series is directed to diverse managerial professionals who are leading the transformation of individual domains by using expert information and domain knowledge to drive decision support systems (DSSs). The series offers a broad range of subjects addressed in specific areas such as health care, business management, banking, agriculture, environmental improvement, natural resource and spatial management, aviation, administration, and hybrid applications of information technology aimed at interdisciplinary issues. This book series is composed of three volumes: Volume 1 consists of general concepts and methodology of DSSs; Volume 2 consists of applications of DSSs in the biomedical domain; Volume 3 consists of hybrid applications of DSSs in multidisciplinary domains. The book is shaped to assist decision support strategies in the new infrastructure that assists the readers in full use of the creative technology to manipulate input data and to transform information into useful decisions for decision makers.

Agricultural Development Policy Roger D. Norton, 2004-02-13
Prepared under the aegis of the Food and Agriculture Organization of the United Nations (FAO), this text presents a fresh and comprehensive look at agricultural development policy. It provides a clear, systematic review of important classes of policy issues in developing countries and discusses the emerging international consensus on viable approaches to the issues. The text is unique in its coverage and depth and it summarizes hundreds of references on agricultural development policies. Cites policy experiences and applied studies in more than 70 countries. Provides guidance for policy makers, giving examples of successes and failures. Reviews issues related to the formulation of strategies and the requirements for making them successful. Develops the conceptual foundations and illustrates policies that have worked and some that have not, with explanations. Topics covered include agriculture's role in economic development, the objectives and

strategies of agricultural policy linkages between macroeconomic and agricultural policy policies for the agricultural financial system and agricultural technology development Upper level undergraduates taking courses in Economic Development and International Development and graduates taking courses in Agricultural Development International and Economic Development Natural Resource Management and specialised topics in agriculture will find this text of great interest It also serves as a reference for professionals and researchers in the field of International Development
