Study Tips

## Prepare before class

Review notes from last class

look through chapter to understand basic idea of this class

May take 20-30 mins, but makes a huge difference.

## When in doubt, write it down

Don't write everything, though! (Main points, main ideas)

Don't spend too long deciding if you should write it down

## Thin your notes

Don't write everything! Leave out words

Use abbreviations - include a key of specific-for-this lecture abbreviations. Eg.: A lecture about King Henry VIII will require you to repeat his name several times. Instead of writing it out each time, make a note: King Henry VIII = H. Or, if that would be confused with King Henry VII, abbreviate it as: King Henry VIII = 8.

## Know your prof

Use the note-taking method that will best help you with this particular prof's lectures.

A more organized prof works well with the Cornell style. Use the note-taking method for visual learners for a prof that jumps around and returns to previous points.

Show the prof your notes after the first lecture and ask if you are hitting main points.
