

HOW TO START WRITING YOUR LIFE STORY *7 tips*

1 CHOOSE YOUR MODE

Will you fictionalize your life or stick to giving real events as truly as you can?

3 SET ASIDE FEAR

Find ways to quell fear of telling a personal or exposing story (e.g. by changing names).

5 LET VOICE RING TRUE

Allow both the parts of yourself that may charm readers and those they may dislike.

7 GET GOOD FEEDBACK

Ask people mentioned if they're willing to read or work 1-on-1 with a writing coach.

2 CONSIDER TIME

Will you start from childhood and tell a linear story or circle back from later events?

4 GATHER KEY EVENTS

Summarize events you want to cover. Write a few lines per main events or scene.

6 AVOID PREENING

Examine your life truly rather than plump it up for the sake of charming your reader.

[Hope in the Mail](#) Wendelin Van Draanen, 2021-09-28 Want to write a novel? This book is the motivation you need. Part writing guide and part memoir, this inspiring book from the author of *Flipped* and *The Running Dream* is like *Bird by Bird* for YA readers and writers. Wendelin

Van Draanen didn't grow up wanting to be a writer but thirty books later she's convinced that writing saved her life. Or at least saved her from a life of bitterness and despair. Writing helped her sort out what she thought and felt and wanted. And digging deep into fictional characters helped her understand the real people in her life better as well. Wendelin shares what she's learned about writing life and what it takes to live the writing life. This book is packed with practical advice on the craft about how to create characters and plot a story that's exciting to read. But maybe even more helpful is the insight she provides into the persistence and perseverance it takes to live a productive creative life. And she answers the age-old question: Where do you get your ideas by revealing how events in her own life became the seeds of her best-loved novels. Hope in the Mail is a wildly inspirational read for anyone with a story to share. **The Right to Write** Julia

Cameron, 2017-12-05 We should write because it is human nature to write. Julia Cameron. In *The Right to Write* Julia Cameron's most revolutionary book, the author asserts that conventional writing wisdom would have you believe in a false doctrine that stifles creativity. This isn't a book of rules and certainly not about how to write that query letter, how to find a market for your work, or how to find an agent. It's about using writing to bring clarity and passion to the act of living. The secrets in breaking loose from the grip of your established thought process to unleash the wave of creativity striving to express itself within. Here are techniques and illustrative stories to help you make writing a natural, intensely personal part of life. And this book includes the details of Cameron's own writing processes when creating her best-selling books, which include the phenomenal and world-famous *The Artist's Way* and *Vein of Gold*. For those jumping into the writing life for the first time and for those already living it, the art of writing will never be the same after reading this book. Provocative, thoughtful, and exciting, you'll return to it again and again as you seek to liberate and cultivate the writer residing within you. *Writing Life Histories*

It provides step-by-step guidance, ideas for different types of life histories, activities, strategies, and material for prompting memories, helpful tools, and writing tips, suggestions for support and forming partnerships with other local services, ideas for involving the person's family and friends, discussion on ethical issues to be considered. The benefits of engaging a group or an individual in life history activities include an aid to memory, creative stimulation, a personalised identity when in a residential home, promotion of interaction and co-operation with others, continuity with previous life experience, thus combating loss of identity, as well as an excellent opportunity to pass on knowledge and experience to others. For staff, knowing about past experiences will promote an understanding of behaviour, needs, and outlook on life, resulting in more personalised care. Staff have references for conversation with cognitively impaired individuals and knowledge about life accomplishments, which promotes respect for individuals. This is an indispensable resource for anyone interested in compiling life histories, including nurses, residential home staff, carers, tutors, and occupational therapists, group facilitators in day centres, clubs for the elderly, or learning disabilities.
