

HOW TO START WRITING YOUR LIFE STORY *7 tips*

1 CHOOSE YOUR MODE

Will you fictionalize your life or stick to giving real events as truly as you can?

3 SET ASIDE FEAR

Find ways to quell fear of telling a personal or exposing story (e.g. by changing names).

5 LET VOICE RING TRUE

Allow both the parts of yourself that may charm readers and those they may dislike.

7 GET GOOD FEEDBACK

Ask people mentioned if they're willing to read or work 1-on-1 with a writing coach.

2 CONSIDER TIME

Will you start from childhood and tell a linear story or circle back from later events?

4 GATHER KEY EVENTS

Summarize events you want to cover. Write a few lines per main events or scene.

6 AVOID PREENING

Examine your life truly rather than plump it up for the sake of charming your reader.

Writing Life:

Writing Life Mhairi Pooler, 2015-12-01 Writers lives are endlessly fascinating for the reading public and literary scholars alike. By examining the self-representation of authors across the schism between Victorianism and Modernism via the First World War, this study offers a new way of evaluating biographical context and experience in the individual creative process at a crucial point in world and literary history. Writing Life explores how and why a select group of early twentieth-century writers, including Edmund Gosse, Henry James, Siegfried Sassoon, and Dorothy Richardson, adapted the model of the German Romantic Künstlerroman or artist narrative for their autobiographical writing. Instead of misreading these autobiographies as historical documentation, Pooler examines how these authors conduct a Romantic-style conversation about literature through literature as a means of reconfirming the role of the artist in the face of shifting values and the cataclysm of the Great War.

Writing Life Histories Robin Dynes, 2017-07-05 Writing Life Histories is a practical handbook which gives clear guidance on how to put together life histories in supportive or residential settings. It provides step-by-step guidance, ideas for different types of life histories, activities, strategies, and material for prompting memories, helpful tools, and writing tips, suggestions for support and forming partnerships with other local services, ideas for involving the person's family and friends, discussion on ethical issues to be considered. The benefits of engaging a group or an individual in life history activities include an aid to memory, creative stimulation, a personalised identity when in a residential home, promotion of interaction and co-operation with others, continuity with previous life experience, thus combating loss of identity, as well as an excellent opportunity to pass on knowledge and experience to others. For staff knowing about past experiences will promote an understanding of behaviour, needs, and outlook on life, resulting in more personalised care. Staff have references for conversation with cognitively impaired individuals and knowledge about life accomplishments which promotes respect for individuals. This is an indispensable resource for anyone interested in compiling life histories, including nurses, residential home staff, carers, tutors, and occupational therapists, group facilitators in day centres, clubs for the elderly, or learning disabilities.

George MacDonald: A Writer's Life Michael Phillips, 2019-05-07 The leading MacDonald scholar and biographer presents the most comprehensive work to date on the 19th-century author's life and work. Best known for his fiction and fairy tales such as the immortal classics *Robert Falconer* and *At the Back of the North Wind*, the Victorian author and theologian George MacDonald inspired some of the greatest writers of the 19th and 20th centuries. Most notably, C. S. Lewis credits MacDonald's books with inspiring his works of fantasy fiction, as well as putting him on the path to Christianity. In this major biographical work, MacDonald scholar Michael Phillips examines how the events of the author's life contributed to his work and legacy. Referring to this volume as a bibliographic biography, Phillips brings his expertise to bear on the complete corpus of MacDonald's fiction, pointing out each book's essential themes and offering insights into how each title can be most perceptively be read.
