

STUDENT-CENTERED LEARNING

Postmodernism is a theory that questions grand narratives and objective truth. Instead, it focuses on how truth emerges through contextual and subjective circumstances.

DEFINITION

"Student-centered instruction [SCI] is an instructional approach in which students influence the content, activities, materials, and pace of learning. This learning model places the student (learner) in the center of the learning process. The instructor provides students with opportunities to learn independently and from one another and coaches them in the skills they need to do so effectively." (Collins & O'Brien, 2003)
