,1885 *Children in Chaos* Leonard Harris,Thomas Harper,Matthew Lipman,1991 Children in Chaos explores the
implementation of Philosophy for Children in four Washington D C public schools between 1987 and 1989 It provides
commentary and arguments by district superintendent Thomas Harper Philosophy for Children creator Matthew Lipman and
the editor the philosopher and founder of Philosophy Born of Struggle Leonard Harris as well as selections of in class diaries
from teachers using the Philosophy for Children program As Harris explains These schools are located in historically strong
middle and lower middle class African American communities facing the relative new growth of social fragmentation drug
use and adolescent crime Lipman argues that Philosophy for Children is uniquely relevant to the educational needs of this
populations because children who come from disadvantaged underprivileged families need educational programs that offer
them cognitive skills that can emerge out of their already impressive linguistic competencies that help them think for
themselves and provide them with a sense of belonging a sense of community and because the community of philosophical
inquiry seeks instead to establish an atmosphere of mutual respect intellectual openness freedom to question and criticize
and courage to confront whatever enigmas life has to offer Harris argues that the teaching of critical thinking should be
situated within the context of a redefined educational mission suited to both the resistance tradition of African American
culture and the pariah of postmodern cultural chaos **Ladies' Home Journal and Practical Housekeeper** ,1898
