**Making Peace with the 60s** David Burner, 2021-07-13 David Burner's panoramic history of the 1960s conveys the ferocity of debate and the testing of visionary hopes that still require us to make sense of the decade He begins with the civil rights and black power movements and then turns to nuanced descriptions of Kennedy and the Cold War the counterculture and its antecedents in the Beat Generation the student rebellion the poverty wars and the liberals war in Vietnam As he considers each topic Burner advances a provocative argument about how liberalism self destructed in the 1960s In his view the civil rights movement took a wrong turn as it gradually came to emphasize the identity politics of race and ethnicity at the expense of the vastly more important politics of class and distribution of wealth The expansion of the Vietnam War did force radicals to confront the most terrible mistake of American liberalism but that they also turned against the social goals of the New Deal was destructive to all concerned Liberals seemed to rule in politics and in the media Burner points out yet they failed to make adequate use of their power to advance the purposes that both liberalism and the left endorsed And forces for social amelioration splintered into pairs of enemies such as integrationists and black separatists the social left and mainline liberalism and advocates of peace and supporters of a totalitarian Hanoi Making Peace with the 60s will fascinate baby boomers and their elders who either joined denounced or tried to ignore the counterculture It will also inform a broad audience of younger people about the famous political and literary figures of the time the salient moments and above all the powerful ideas that spawned events from the civil rights era to the Vietnam War Finally it will help to explain why Americans failed to make full use of the energies unleashed by one of the most remarkable decades of our history

*Men to Boys* Gary S. Cross, 2008 When did maturity become the ultimate taboo Men have gone from idolizing Cary Grant to aping Hugh Grant shunning marriage and responsibility well into their twenties and thirties Gary Cross renowned cultural historian identifies the boy man and his habits examining the attitudes and practices of three generations to make sense of this gradual but profound shift in American masculinity Cross matches the rise of the American boy man to

trends in twentieth century advertising popular culture and consumerism and he locates the roots of our present crisis in the vague call for a new model of leadership that ultimately failed to offer a better concept of maturity **The Sixties**

**Revisited** Jürgen Heideking, Jörg Helbig, Anke Ortlepp, 2001 Even at the start of the new millennium the American Sixties continue to fascinate many scholars as one of the pivotal decades of the 20th Century During those years the United States seemed to be striving for new frontiers at home and abroad driven by a generation of eager and idealistic young Americans Civil Rights Women's Liberation Pop Art Flower Power Postmodernism Woodstock the landing on the moon Everything seemed possible But the decade that had begun with the hopeful words of President John F Kennedy and Martin Luther King Jr ended with the bloody nightmare of the Vietnam War summers of violence in Northern black ghettos and a rising tide of conservatism To explore some of these contradictions this collection of essays takes a fresh look at America's most turbulent years from a multidisciplinary perspective Dealing with the Arts and Media Literature and Society as well as History and Politics the contributions offer a broad approach to a contemporary understanding of the Sixties and their legacy

Madness Is Civilization Michael E. Staub, 2011-08-15 In the 1960s and 1970s a popular diagnosis for America's problems was that society was becoming a madhouse In this intellectual and cultural history Michael E Staub examines a time when many believed insanity was a sane reaction to obscene social conditions psychiatrists were agents of repression asylums were gulags for society's undesirables and mental illness was a concept with no medical basis *Madness Is Civilization* explores the general consensus that societal ills from dysfunctional marriage and family dynamics to the Vietnam War racism and sexism were at the root of mental illness Staub chronicles the surge in influence of socially attuned psychodynamic theories along with the rise of radical therapy and psychiatric survivors movements He shows how the theories of antipsychiatry held unprecedented sway over an enormous range of medical social and political debates until a bruising backlash against these theories part of the reaction to the perceived excesses and self absorptions of the 1960s effectively distorted them into caricatures Throughout Staub reveals that at stake in these debates of psychiatry and politics was nothing less than how to think about the institution of the family the nature of the self and the prospects for and limits of social change The first study to describe how social diagnostic thinking emerged *Madness Is Civilization* casts new light on the politics of the postwar era

**The 1960s** Jennifer A. Hurley, 2000 Presents opposing viewpoints on events of the 1960s including the Vietnam War social rebellion the civil rights movement and the women's liberation movement *It's Our Day* Katherine Jellison, 2008
