Abstract

The synoptic Gospels in the New Testament canon provide the information concerning the birth, life, ministry, death and resurrection of Jesus Christ. A careful reading reveals the similarities and differences among the Synoptics; one is somehow eager to provide an explanation. Over the years, the similarities and differences in the Synoptic gospels pose significant challenges to the doctrines and expositions of the texts. Why are there varieties in language agreement among them? Is any of the writer abreast with the work of one (or more) of the other? Are they dependent on older, now lost written sources? In other words, the literary relationship is what constitutes the Synoptic Problem. It is thus, the attempt to answer these questions by Synoptic scholars for about the last two hundred years. The research observes that the scope of 'Synoptic problem' is wide, because of varying schools of thoughts that have developed over time; however, the scope of this discourse is centered on J.J. Griesbach and Streeter's arguments.

Keywords: Synoptic Gospels, Synoptic Problem, New Testament.

Introduction

The New Testament canon presents four (4) separate accounts of the life of Jesus from which the church nourishes itself both spiritually and doctrinally. However, the explicit structure and narrative parallels between Matthew, Mark and Luke make it possible to set their accounts of Jesus' life alongside one another – thus "Synoptically". This enables one to gain a "synoptic" overview the three accounts. When the Synoptic Gospels are arranged in a parallel arrangement it is evident that they stand in a literary relationship with one another. In recent centuries scholars have wondered what exactly that relationship is. This has led to one of the major unsolved issues in Gospel Studies: "The Synoptic Problem". This assertion forms the framework of this discourse. In view of this, several scholars and notably among them are: J.J Griesbach (4 January 1745 – 24 March 1812, a German biblical textual critic) and B.H. Streeter (17 November 1874 – 10 September 1937, a British biblical scholar and textual critic) who have sought to give explanations on the considerable similarities and differences in spite of the extensive agreements of these three literary works.

The Synoptic Gospels

To begin with, the research sees the need to briefly explore what and why these gospels are referred to as "Gospels" and "synoptic" gospels. Nickle explained that the term 'gospel' mainly refers to a type of written document such as the first four books of the New Testament. He further

Earthquakes and Eschatology in the Gospel According to Matthew Brian Carrier,2020-11-09 In this

study Brian Carrier provides a comprehensive analysis of the role that seismic language plays within the Matthean Gospel narrative. After reconstructing what connotations seismic language likely carried in Matthew's cultural context, the author utilizes an historically informed author-oriented narrative criticism that is complemented with redaction criticism to analyze the relationships that Matthew's seismic references display with regards to each other and to the overall narrative. This analysis leads to the conclusion that Matthew's seismic references collectively indicate that the life, death, and resurrection of Jesus together represent the partial fulfillment of the Old Testament eschatological Day of the Lord.

Christology and the Synoptic Problem Peter M. Head, 1997-07-03

This book makes a major contribution to the ongoing debate about the synoptic problem, especially concerning the question of which gospel was written first. The scholarly consensus developed over two hundred years of discussion has favoured Markan priority and the dependence of both Matthew and Luke upon Mark. In an ongoing contemporary revival of the Griesbach hypothesis, some scholars have advocated the view that Mark used conflated and abbreviated Matthew and Luke. The author explores the role played by arguments connected with christological development in support of both these views. Deploying a comparative redaction-critical approach to the problem, Dr Head argues that the critical basis of the standard christological argument for Markan priority is insecure and based on anachronistic scholarly concerns. Nevertheless, in a thoroughgoing comparative reappraisal of the christological outlooks of Matthew and Mark, the author finds decisive support for the hypothesis of Markan priority, arguing that Matthew was a developer rather than a corrector of Mark.
