Alex Heiphetz, Gary Woodill

Ebook Virtual Collaboration:

Virtual Teams Terri R. Kurtzberg, 2014-03-28 To advance in today's workplace requires virtual team skills. Most individuals assume their face-to-face skills will translate, but competency with virtual communication and teamwork requires an entirely new set of skills. This book guides readers down the path to success. Electronic communication is now embedded in our daily experience, as is work involving off-site collaborators. Virtual communication has become an essential job skill that is critical to individual and group success, yet most people just muddle through it without giving it any thought. Drawing on decades of scientific research in the fields of psychology, organizational behavior, and sociology, this book explains how to master the art and science of communicating virtually. The author first analyzes the subtle but significant changes that result when conversations are moved online, providing examples and tips to avoid common pitfalls, then discusses how team behavior and decision making can best be guided in this realm. Readers will fully understand what makes teams click, what inspires trust, how to get a team off on the right foot, and what steps to take in order to make good collaborative decisions, as well as other key topics for virtual teamwork, such as best practices for working in the cross-cultural environment. The book serves as an ideal guide for anyone who participates in or manages a virtual team, but is also suitable as a supplemental textbook in a business school course on organizational behavior or business communication.

Connecting Your Students with the Virtual World Billy Krakower, Jerry Blumengarten, 2020-12-28 Make the most of today's technology to give your students a more interactive, authentic, global learning experience. *Connecting Your Students with the Virtual World* shows you how to plan themed projects for every season, embark on virtual field trips, and get students in touch with other classrooms worldwide. This updated edition includes a key new chapter on taking video conferencing to the next level for optimal student engagement and collaboration, as well as new chapters on connecting through games and esports, and connecting with parents. The book includes a wide variety of standards-based, step-by-step activities you can implement immediately.

Business Goes Virtual John P. Girard, 2011 This book combines academic theory with real-world practitioner success stories to provide executives a summary of current best practices. This book examines five virtual business strategies that are showing unprecedented opportunity. The Any Place Any Time strategy focuses on providing high-quality service 24/7 by ignoring traditional geographic challenges.

Leading Virtual Teams Harvard Business School Press, 2010-04-01 How do you lead a team scattered all over the globe? How do you keep members you can't see focused, communicative, and productive? This book helps you understand both the benefits and challenges of virtual teams and shows you how to build and coach a community that promotes collaboration and ongoing communication.

Training and Collaboration with Virtual Worlds Alex Heiphetz, Gary Woodill, 2010-01-05 Team Building and Leadership Coaching with Virtual Worlds. New collaborative technologies to keep your company competitive, productive, and efficient. With the business landscape changing every day, companies need training solutions that are not only cost-efficient but engaging, quantifiable, and global. Learn how virtual

worlds can help you create training and recruitment programs that attract quality talent build great teams and connect a global workforce all for less than your current training budget Training and Collaboration with Virtual Worlds walks you through the available technologies helps you match virtual tools to your organizational needs and shows why these programs have already taken off at leading companies Learn why leading companies like IBM TMP Worldwide Michelin Intel Microsoft and others are going virtual Revitalize recruitment and new hire orientation to improve employee quality productivity and retention Conduct worldwide training in real time minimizing costs and time Reduce travel while efficiently managing geographically dispersed teams Break down dangerous or complex training procedures into manageable simulations Experts agree that within five years the 3D Internet will become as important to companies as the Web is today Training and Collaboration with Virtual Worlds will put your company ahead of that curve with great results Access the latest information and resources on www.TheVirtualWorldsBook.com

Collaborative Convergence and Virtual Teamwork for Organizational Transformation Zhao, Jingyuan,2020-10-30 Virtual teams are work arrangements where team members are geographically dispersed and work interdependently using electronic communication media to accomplish one or more organizational tasks Over the past several decades there has been an explosive growth in organizational use of virtual teams to organize work In the competitive market virtual teams represent a growing response to the need for faster time to market low cost and rapid solutions to complex organizational problems Organizations are increasingly investing in virtual teams to enhance their performance and competitiveness However there are unsolved issues of design and implementation of collaboration technologies for virtual teams and their collaborative convergence Collaborative Convergence and Virtual Teamwork for Organizational Transformation is an innovative collection of research that analyzes and discusses successful organizational transformation that requires a holistic understanding of the issues linked to team and workplaces communication and integration technological barriers and sociocultural factors The chapters highlight topics such as collaboration technologies in virtual teamwork collaboration technologies impact on organizational transformation as well as web based tools collaborative learning tools group decision support systems workflow automation systems and more This book is ideally intended for business professionals managers and practitioners stakeholders researchers academicians and students looking for the latest research in virtual teamwork and its impact on organizational transformation *Literary Translation, Reception, and Transfer* Norbert Bachleitner,2020-09-21 The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena they are based on similarities that are related to a form of travelling and imitation or adaptation of entire texts genres forms or contents Transfer comprises all sorts of travelling with translation as a major instrument of transferring literature across linguistic and cultural barriers Transfer aims at the process of communication starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture Reception lays its focus on the receiving culture

especially on criticism reading and interpretation Translation therefore forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers Moreover translations are the prime instrument in the distribution of literature across linguistic and cultural borders thus they pave the way for gaining prestige in the world of literature The thirty eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna They are ample proof that the field remains at the center of interest in Comparative Literature
